## LINING UP THE STATE TROOPS.

**Uncle Sam Calls for Militia Officers to Join Army.**

**Opportunity Offered for Observation and Study.**

**Government Will Defray Expenses and Pay Them.**

**ASSOCIATED PRESS NIGHT REPORT.**

WASHINGTON, March 9.—The scene of activity in connection with the movement of troops to the Mexican border has shifted now to the line which they will occupy, and official Washington has become merely a place for the receipt of reports showing the progress of the units to their place of rendezvous.

The War Department tonight made public the contents of the telegram which was sent today to the adjutant-general of the several State militias, inviting "a limited number of militia officers to avail themselves of the opportunity afforded by the maneuvers, for observation and technical study."

The dispatch, sent by Gen. Robert K. Evans, acting chief of the Bureau of Military Affairs of the War Department, follows:

"The adjutants-general of all States and Territories and the District of Columbia militia:

"In connection with the mobilization of Federal troops for maneuver purposes, it is instructed by the Secretary of War to inform you that the department desires to extend to a limited number of officers of the organized militia an opportunity to attend the maneuvers for purposes of observation and technical study."

"With this end in view, it is requested that you furnish this office at the earliest practicable date, a list of names of officers, line or staff, of the organization militia your state, giving the name of each officer and rank and arm of service and the probable time that he will be able to report and to remain at the encampment."

**PAY AND EXPENSES.**

The department will consider the service as falling within the provisions of section 15 of militia law, and, therefore, the pay and transportation of such officers will be defrayed by regular disbursing officers from the special annual appropriation for joint maneuvers.

"It is requested that, in presenting the names of these officers, you accompany the request with an estimate of the time and transportation to be spent in the maneuvers, so that such as the accommodations are limited, it probably will be necessary to make selections of the list presented. Information as to the officers selected by the department for this service and the places to which they will report, will be furnished later after the lists have been received and acted upon."

The extensiveness of the medical accompaniments to the army and navy in the movement southward adds to the significance of the operations.

The hospital ship *Solace*, equipped as a floating infirmary, will participate in the movement, and will leave Guantanamo in a day or two for New York or Norfolk with eighty sick from the battleship fleet now in Cuban waters and will be fitted out as a medical supply ship and sent to join the vessels of Admiral Staunton's division of the Atlantic fleet ordered to Guantanamo.

**ON PACIFIC SIDE.**

The medical staff of the Prairie and Dixie, the vessels selected to carry the large force of marines to Guantanamo, has been increased. On the Pacific side the Buffalo is receiving the marines, who are being collected from the barracks that stand for transportation to San Diego, and Major-General Stokes has taken similar precautions for medical assistance to the marines on that vessel.

Admiral Stokes is accepting this opportunity to save the expense of his machinery to carry out the efficiency of his machinery to carry out emergency orders.

Extensive preparations are being made by Surgeon-General Torney of the army to meet the 20,000 soldiers being rushed to the frontier.

A reserve medical supply, which contains medical supplies for 30,000 troops for three months, will be shipped from St. Louis to San Diego tomorrow. Two hospital ships, which are the largest used by an army in the field, are being assembled at St. Louis, from which point they can be dispatched southward.

**Prisoners?**

**REBELS MENACE EASTERN PARTY.**

**REPORT CURRENT OF CAPTURE OF CHICAGOANS.**

**Head of Illinois Malleable Steel Company, With Four Guests on Chinchorro Ranch, Said to Be in Insurgent Hands—Impossible to Reach Place by Telegraph.**

**(BY DIRECT WIRE TO THE TIMES.)**

CHICAGO, March 9.—[Exclusive Dispatch.] That five Chicagoans, including two women, are in danger from the rebels in Mexico, is the opinion of E. Bullock, president of the Illinois Malleable Steel Company, near Chicago, Mex., and that Mr. Bullock has been captured by them, is a report which is causing their friends here considerable anxiety.

The wire in the district in which Mr. Bullock's hacienda is located has been cut by the insurgents and it is impossible to verify the report.

The members of the party with Mr. Bullock are Miss Mary Bullock, his sister; Mrs. D. E. English, his sister; J. B. Sheehan, vice-president, and Palmer E. Montgomery, treasurer, of his company.

"I received a letter from Mr. Bullock a day or two ago," Mrs. Bullock said today, "and he does not say a word about any trouble with the insurgents near his ranch. He report shows to me. The ranch is thirty miles from the village of Jimenez on the Mexican Central Railroad. The party went down there February 21 for a vacation of a month."

Mr. Bullock's brother, J. E. Bullock,

## TROOP TRAIN CAUGHT FIRE.

**Carload of Horses En Route to Mexican Boundary Burn in Oklahoma.**

**(Associated Press Night Report.)**

DENISON (Tex.), March 9.—One car of horses was destroyed and two soldiers reported killed, as a result of a fire originating in a stock car of a troop train on the Missouri, Kansas & Texas Railroad, near Duran, Okla., to-night.

**Forty Thousand Men Now on Mexican Border.**

**United States Keeps Secret Well and Even Officers Ordered to Front Cannot Say Why—Speculations Cover Wide Range of Probable Causes for Movement.**

**(By Direct Wire to the Times.)**

WASHINGTON (D. C.), March 9.—[Exclusive Dispatch.] "With the sailors and marines, they have about 40,000 men down there, I tell you major," one retired officer to another to-day. "There's something behind all this."

That's what everyone is saying, everyone, that is, whose tongue is not tied by official orders.

As to speculations, anyone is free to indulge in them. The probability that Japan is backing the insurrection; the negotiations of that country, as told recently in the consular daily reports, the coaling stations on the Mexico-West Coast, the secretions with the Indians on the Colorado River, the alleged desire of this country to acquire a naval base on Magdalena Bay and a strip of territory taking in the mouth of the Colorado, the fear that Diaz if not dynamited, will remain in power and that the vast American interests in Mexico will suffer if a change of administration occurs; the necessity of maintaining the Monroe Doctrine—all of these and other causes are dependent on the outcome of the war on the frontier at once, but no one knows the truth. Army officers going to the front at once, prepared to stay six months, but why, they don't know.

From all that can be learned the Americans, who consisted largely of members of the Industrial Workers of the World, and who planned to establish a socialist Utopia in Lower California, have all been eliminated by the rebel forces.

The Americans were restored to power, to-day, and announced their intention of marching upon Ensenada at once. The plan is to leave tomorrow night. When Berthold was shown a dispatch bearing 400 Federals, with artillery, to Ensenada, he said that would make no difference.

"Our army is composed almost entirely of Mexican patriots," he said. "More than a hundred joined today in the ranks of the strict border patrol maintained by the United States army. There will be no further friction."

Mr. Wilson, who is in the United States on leave of absence, denied that he is to quit his post in Mexico, but the report will not down that he will soon be out of the service.

Former Governor Gould was the special ambassador to Mexico at the recent centennial held in Mexico City. He made a fine impression on people there, according to reports brought here by Special Ambassador Casaus a few weeks ago. It is probable that changes will be made during the present trouble in Mexico.

**Data on California Guard.**

**Adjutant-General Wires Col. Schreiber to Ascertain How Many Officers Can Go to the Front.**

Col. Schreiber, commanding the Seventh Regiment, N.G.C., with headquarters in Los Angeles, received a telegram last night from the Adjutant-General of the State directing him to ascertain how many officers of his regiment can leave at once for the border "for instruction and observation."

The dispatch, sent by Gen. Robert K. Evans, acting chief of the Bureau of Military Affairs of the War Department, follows:

"The adjutants-general of all States and Territories and the District of Columbia militia:

"In connection with the mobilization of Federal troops for maneuver purposes, it is instructed by the Secretary of War to inform you that the department desires to extend to a limited number of officers of the organized militia an opportunity to attend the maneuvers for purposes of observation and technical study."

The officers will provide their own transportation.

On receiving the dispatch, Col. Schreiber at once began sending telegraph and telephone messages to the captains of his companies and to the members of his staff.

The captain is ordered to report at once when they will leave, and how long they could be gone. Col.

Schreiber expects to receive their replies this morning at his office in the Street Department at the City Hall.

He will probably be one of those who will be asked to go to the front.

One of the officers of high rank in the regiment stated last night that the officers are bewildered at being called out without the men.

**AGUA PRIETA NOW MENACED.**

**Attack by Rebels Expected This Morning—Inhabitants Flee to American Side for Safety.**

**ASSOCIATED PRESS NIGHT REPORT.**

DOUGLAS (Ariz.), March 9.—[Exclusive Dispatch.] "John Carlson, 'Red' Lopez and bracemates appeared suddenly before Agua Prieta tonight. It is believed the move is being made in conjunction with Blanco, and that Agua Prieta will be attacked before morning. Wildcat excitement followed and there was a general rush of Mexicans to the American side.

The extensiveness of the medical accompaniments to the army and navy in the movement southward adds to the significance of the operations.

The hospital ship *Solace*, equipped as a floating infirmary, will participate in the movement, and will leave Guantanamo in a day or two for New York or Norfolk with eighty sick from the battleship fleet now in Cuban waters and will be fitted out as a medical supply ship and sent to join the vessels of Admiral Staunton's division of the Atlantic fleet ordered to Guantanamo.

**ON PACIFIC SIDE.**

The medical staff of the Prairie and Dixie, the vessels selected to carry the large force of marines to Guantanamo, has been increased. On the Pacific side the Buffalo is receiving the marines, who are being collected from the barracks that stand for transportation to San Diego, and Major-General Stokes has taken similar precautions for medical assistance to the marines on that vessel.

Admiral Stokes is accepting this opportunity to save the expense of his machinery to carry out the efficiency of his machinery to carry out emergency orders.

Extensive preparations are being made by Surgeon-General Torney of the army to meet the 20,000 soldiers being rushed to the frontier.

A reserve medical supply, which contains medical supplies for 30,000 troops for three months, will be shipped from St. Louis to San Diego tomorrow. Two hospital ships, which are the largest used by an army in the field, are being assembled at St. Louis, from which point they can be dispatched southward.

**Prisoners?**

**REBELS MENACE EASTERN PARTY.**

**REPORT CURRENT OF CAPTURE OF CHICAGOANS.**

**Head of Illinois Malleable Steel Company, With Four Guests on Chinchorro Ranch, Said to Be in Insurgent Hands—Impossible to Reach Place by Telegraph.**

**(By Direct Wire to the Times.)**

CHICAGO, March 9.—[Exclusive Dispatch.] That five Chicagoans, including two women, are in danger from the rebels in Mexico, is the opinion of E. Bullock, president of the Illinois Malleable Steel Company, near Chicago, Mex., and that Mr. Bullock has been captured by them, is a report which is causing their friends here considerable anxiety.

The wire in the district in which Mr. Bullock's hacienda is located has been cut by the insurgents and it is impossible to verify the report.

The members of the party with Mr. Bullock are Miss Mary Bullock, his sister; Mrs. D. E. English, his sister; J. B. Sheehan, vice-president, and Palmer E. Montgomery, treasurer, of his company.

"I received a letter from Mr. Bullock a day or two ago," Mrs. Bullock said today, "and he does not say a word about any trouble with the insurgents near his ranch. He report shows to me. The ranch is thirty miles from the village of Jimenez on the Mexican Central Railroad. The party went down there February 21 for a vacation of a month."

Mr. Bullock's brother, J. E. Bullock,

**Americans Captured.**

PHOENIX (Ariz.), March 9.—Mexican General Brava has advised the government that among those captured by the rebels in the Altar district a few days ago was R. A. Dorame of Phoenix and about a dozen men of his command. Dorame is known here as a socialist, and it is understood that since the trouble broke out, he has done considerable recruiting, and but recently took a number of men from Central Arizona points for observation.

**Wisconsin Guard Invited.**

MADISON (Wis.), March 9.—Adjt.-Gen. Boardman late today received an invitation from the War Department to attend the maneuvers of the Wisconsin National Guard to the scene of the maneuvers near Mexico for observation.

**Francis Keenly Interested.**

**General Impression Is That America Is Merely Preparing to Protect Interests If Threatened Later.**

**ASSOCIATED PRESS NIGHT REPORT.**

PARIS, March 9.—[Exclusive Dispatch.] The officials of the French government are represented to the Foreign Office, where, in the absence of special advices from Washington, it is assumed that the reasons for the recent intervention in Mexico are wholly sufficient.

Local financial interests are somewhat concerned regarding events in Mexico, where it is roughly estimated that this country has \$100,000,000 invested.

The explanation of the latest developments, current on Paris, is that the United States has in mind the ultimate possibility of being required to protect the immense American interests in Mexico, which might be imperiled in the event of the death of President Diaz, by widespread disorders.

Berthold and Leyva appear very confident since the discordant element has been eliminated and both are preparing to lead the forces against Ensenada.

**FRENCE KEENLY INTERESTED.**

**COLLERS Loading at Puget Sound Navy Yard Under Rush Orders to Supply San Diego Fighting Boats.**

**(By Direct Wire to the Times.)**

SEATTLE (Wash.), March 9.—[Exclusive Dispatch.] Virtually no coal at Mare Island, where all the fighting forces of the West Coast have been ordered to rendezvous, to get the planes ready for the opening of the Spanish war marked by the departure of the telegram sent to President Diaz by President Taft.

Commenting on this telegram, Mr. Limantour said:

"This communication from President Diaz is good news to us," he said.

President Diaz, he said, is to be reassured by the government and should be to my people who naturally have been greatly disengaged by the sectional elements made up of many of the comments made by the press on the whole matter and also the number of false rumors which are being printed about Mexico. It is impossible for me to understand why sensational developments should be expected with two people whose relations are so well defined as those of Mexico and the United States are, and who are living and for a long time have lived as such good neighbors."

**REBELS CONFIDENT.**

Leyva reaffirmed the news of the capture of Tecate at 4 o'clock this morning, and declares that the fifty men who achieved the capture will join in the campaign against Ensenada.

Berthold said he expected to encounter the first Federal troops in the Pichachos Pass, where rebel scouts had a brush with government forces this morning. Although the pass is just wide enough to permit the passing of troops in single file the rebels claim that two were killed. This has not been confirmed.

An American army officer expressed the opinion of men could hold the pass against a regiment. The retirement of the insurgents seems to indicate that the Federals obtained the advantage, and that if there is to be a battle it will occur in this vicinity, as the pass is only thirteen miles away.

Berthold and Leyva appear very confident since the discordant element has been eliminated and both are preparing to lead the forces against Ensenada.

**WYOMING BOYS ON WAY.**

**TROOPS LEAVE FOR BORDER.**

**(Associated Press Night Report.)**

CHEYENNE (Wyo.), March 9.—Carrying a machine gun platoon and the wagon train of the Eleventh Infantry, the first detachment of troops left Ft. D. A. Russell at 3 o'clock this afternoon for Santa Anna, Tex. The remainder of the regiment will leave sometime tonight, while the engineers and pack mule corps will get away Saturday.

Scenes similar to those witnessed at the opening of the Spanish war marked the soldiers' farewells to their families.

Orders were given to remove from Washington for a month on the amount of shrapnel and shell ammunition on hand at the fort.

**Invited to Maneuvers.**

COLONEL RECEIVES CHECK.

After Long Years.

**ASSOCIATED PRESS NIGHT REPORT.**

SEATTLE (Wash.), March 9.—[Exclusive Dispatch.] The Portland and Seattle Company today sent to the Far East about 15 per cent carrying flour from the ports beyond the Manchurian frontier. The price is \$1.5

## AWARD ORANGE SHOW PRIZES.

Judges Begin Work of Naming Blue Ribboners.

Honors Go to Various Sections of Citrus Belt.

Saturday Will Be Banner Day for Attendance.

**SAN BERNARDINO.** March 9.—Today the Award Committee, consisting of Col. George of Santa Paula, Prof. J. Elliott Colt of the University of California and Assistant General Manager Moulton of the California Fruit Growers Exchange, commenced work. Awards made tonight were for the best exhibit of twenty-five or more boxes of oranges, prize sweepstakes challenge cup, Highland Orange Growers' Association; second prize, Gold Buckle Association of East Highland; third prize, Etiwanda Best exhibit of twenty-five or more boxes of oranges, sweepstakes cup, Corona, Chamber of Commerce, second prize, Rialto Packing Company; Best feature exhibited, Gold Buckle Association, East Highland, \$50; second prize, Rialto Chamber of Commerce; third prize, Redlands Board of Trade, banners.

Best exhibit of five boxes of oranges, loving cup, Highland Orange Growers' Association; Second prize, Gold Buckle Association, West Highland Circuit, \$10. Best exhibit of five boxes of lemons, A. Tanner, Etiwanda.

Best exhibit of five boxes of seedling oranges, Montague C. Mascari, Redlands, ribbon.

Best exhibit of single box lot of oranges, Highland Orange Association; Second prize, Gold Buckle Association; third prize, Etiwanda.

Best single lot of Valencia's, A. F. Leichtfuss, Bloomington.

**INTERESTING EXHIBITS.** One of the most interesting displays is a big pyramid of "Parson Brown" seedling gathered from one of the original trees. The fruit of this particular tree was from a tree 40 years old, which for years has given forty boxes of fruit each season. The fruit is smooth, well shaped, highly colored and juicy. This tree is on the home place of Montague C. Mascari at Redlands.

Myron Sherman of Redlands displays "25 navels." These are prize fruits, big, glossy, smooth, uniform, and being an exact duplicate of the others. There are also many plate displays of seedling grapefruit, St. Michaels, Valencia, and a number of attractive table displays of ruby blood oranges, the color suggesting fruit of Imperial lineage.

Among the delegations arriving today were from Santa Ana, Fullerton and Orange, A. C. Black, president of the Santa Ana Chamber of Commerce, headed his delegation. W. W. Wilson, president of the Associated Chambers of Commerce of Orange County; W. H. Wallace, secretary, and other boosters, were among the throng. Other delegations from Long Beach, Col. Coulter, A. E. Bird, W. H. Ranna, John Gorman and G. P. Willard being among them. All were shown in the grand hall of the show. Present exhibits are delightful to look upon; the feature displays are beautiful, the arrangement is perfect, and as a whole in detail the show is a revelation.

Tomorrow the Santa Fe, Bloomington, Rialto, Colton and Highland. Big excursions are expected in from those places.

Saturday, the closing day of the show, unless a show is held over to show, will be held over to the week. It has been officially designated "Santa Fe Day."

The entire Santa Fe shows and offices will be close down at noon, a half holiday being declared at the big mechanical show. This will give the railroads and their families an opportunity to visit the orange show and stay in its beauties, and should make Saturday a record day for attendance.

The Coast line officials of the Santa Fe have been invited to be the guests of the show management on that day, and have accepted and will be attending at the show probably in the afternoon.

Arrangements have been made to give the tourists who arrive in California, the California Line, a chance to see the orange show. The train is due in San Bernardino at 12:15, and will be stopped here as long as necessary to permit the passengers to see the show.

Automobiles will meet the train, take the passengers to the show, and show where they will be given a half hour or more to take in the sights. They will then return to the train to take up their journey. The Santa Fe has consented to the stopping of the train for this purpose.

**RATE WAR ON TO FAR EAST.**

Japanese Steamship Companies Cuttings Freight on Wheat and Flour for Shipment to Orient.

(BY DIRECT WIRE TO THE TIMES.) PORTLAND (Ore.) March 9.—(Exclusive Dispatch.) Following closely upon the discovery, made last week, that Japan has been importing flour and wheat for months past, in quantities far greater than ever before, and paying better than market quotations in

## RATS ATTACK REPAIR CREW.

Big Mountain Rodents Stop Work on Power Line Near Tonopah, Nev.

(Associated Press Night Report.) TONOPAH (Nev.) March 9.—Attacked by fierce mountain rats, which in search of food, had burrowed up through the snow lying waist deep on the ground, a force of men engaged last night in repairing a break in the Place de l'Etoile, and was introduced by them at various gambling clubs. During the visit to these places, he says, the men robbed him of his entire fortune by the use of marked cards and other devices.

Three sailors from the United States auxiliary steamer Tennessee were dead from gas in a room in the Hotel Washington in Hoboken, yesterday. The gas in the room was turned on

## FLAMES DOOM ALASKA TOWN.

City of Douglas Burning and Eight Hundred Men Fight Fire in Vain.

(Associated Press Night Report.) JUNEAU (Alaska) March 9.—The town of Douglas is burning. A high wind is blowing and the intense cold makes fire-fighting extremely difficult. Eight hundred men are engaged in fighting the flames, but are making no headway.

## BREACH MAY LEAD TO COURT.

Fight Over Missouri Pacific Leadership Is Hot.

George Gould and Banking Interests at Odds.

Brother Frank Stirs Up the Trouble With Deal.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, March 9.—(Exclusive Dispatch.) A renewal of the contest for the control of the Missouri Pacific Railroad, which Gould has been waging for several years, is tired of waiting and announces her intention of building her own railroad. The proposed route has been roughly laid out and the Farmington, Albuquerque and Gulf Railroad Company organized, enough money having been raised for the preliminary surveys and the right-of-way projects will be pushed.

Present plans call for the building of 200 miles of line from Albuquerque on the west to Farmington, giving San Juan county and Farmington for the first time, direct connection with a main line.

San Juan county has enough bituminous coal to supply the country for a hundred years, a million and a quarter acres of agricultural land open to entry, 40,000 acres under cultivation and water for irrigating 100,000 acres.

It is estimated that the proposed railroad will haul 1,000,000 tons of traffic yearly in coal, coke, lumber and other products.

KENTUCKY AIRING VOTE BUYING Sensational Disclosures Expected to Follow Indictments by Grand Jury Now Holding Sessions.

(BY DIRECT WIRE TO THE TIMES.) LEXINGTON (Ky.) March 9.—(Exclusive Dispatch.) William C. May, attorney of the Thirty-first Judicial District, today stated that a large number of indictments in the vote-buying investigation in Floyd county have already been returned to the grand jury and that he expects between five and six hundred before the grand jury completes its work and adjourns.

Both Circuit Court Clerk and Commonwealth's Attorney May have gone after the alleged vote sellers and buyers in Floyd, Magoffin and Knott counties, with the prospect of rivaling in sensation and extent the Adams county Ohio exposure.

EVEN J. P. HAVE AFFINITIES.

San Francisco Oriental Seeks Divorce From Spouse Who Says Out-Law With Her Soul Mate.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, March 9.—(Exclusive Dispatch.) A Japanese wife with a soul mate, and a husband who offers objection to such breach of the marital contract, have agreed upon at the recent conference for the settlement of the threatened contest for control of the property.

From information in other quarters it is known that the banking interests concerned in the situation are satisfied that Frank J. Gould is acting with the approval of his brother and that the appearance of this committee in the field represents an effort to retain for the Goulds a larger voice in the affairs of the Baltimore firm.

Both Circuit Court Clerk and Commonwealth's Attorney May have gone after the alleged vote sellers and buyers in Floyd, Magoffin and Knott counties, with the prospect of rivaling in sensation and extent the Adams county Ohio exposure.

THE POLICE SEIZE AMMUNITION.

New York Authorities Hold Up What Is Believed to Be Shipment Destined for Insureceto Army.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, March 9.—(Exclusive Dispatch.) Thirty-two thousand rifle and revolver cartridges, supposed by the police to be a consignment to the insurgents in Mexico, were taken from a wagon near the docks in Erie Basin today, in which five persons were injured by street car strikers and their sympathizers. The riot was occasioned by the running of street cars after unionite leaders and the company officials had signed an agreement.

According to the agreement, all who were on the pay roll of the company Sunday, the first day of the strike, were to be "returned" to work. Those who were discharged prior to that time were to be accepted back on application, and the company was to make no distinction between union and non-union men.

After fifteen cars had left the barn, union men began to collect on the down-town corners and as fast as the cars would come up, the unionists would swarm into them, demanding that motormen and conductors show union cards and the road was completely blocked.

One conductor, attacked because he carried no card, was severely beaten up and four other persons, more or less seriously injured. All those injured were arrested, but members of the mob were not molested.

The police and sheriff's force are unable to cope with the situation and Gov. Bruce, was so informed at 7 o'clock tonight. That Oklahoma City is tired of the strike was evidenced by the aviation that the first car received as it ran down Main street.

The lower House of the Legislature, almost in a body, rushed to the windows of its hall and cheered the first car. Just then some one shouted "scab" and within ten minutes, twenty-five hundred persons had collected about the car. One company of the State militia, which has quarters here has been mobilized, but probably will not be needed tonight as all cars have been run to the barns and no further attempt to run them will be made until tomorrow.

The carriages, according to Policeman Russell, who seized them, were shipped by S. H. Field, a clover-leaf man, who asserted he had sold them to some person, whose name he could not remember, but who often bought large quantities of ammunition for shipment to San Domingo. Fieldman told Magazine Hidalgo in the Butterfield street station, he had a number of small cartridges and it is likely they will be returned to him.

Morris Gerber of No. 174 South street, Antonio Lorenzo of No. 774 James street, and Frank Abevino of No. 44 High Street, all residents of Manhattan, who were in the wagon and who were arrested by Russell, were discharged.

The Coast line officials of the Santa Fe have been invited to be the guests of the show management on that day, and have accepted and will be attending at the show probably in the afternoon.

Arrangements have been made to give the tourists who arrive in California, the California Line, a chance to see the orange show. The train is due in San Bernardino at 12:15, and will be stopped here as long as necessary to permit the passengers to see the show.

Automobiles will meet the train, take the passengers to the show, and show where they will be given a half hour or more to take in the sights. They will then return to the train to take up their journey. The Santa Fe has consented to the stopping of the train for this purpose.

## ORDERS TROOPS PROTECT CARS.

OKLAHOMA GOVERNOR DIRECTS RIOT ABATEMENT.

Street Car Company Officials Promise to Run Cars Under Protection of State Militia—Unitones Close Agreement and Assaults Follow Attempts to Resume.

(ASSOCIATED PRESS NIGHT REPORT.) OKLAHOMA CITY (Okla.) March 9.—(Exclusive Dispatch.) Officials of the street car company announced tonight that their cars will run at daylight tomorrow, under protection of the state militia. Three companies were ordered to the Oklahoma City tonight by Gov. Lee Cruce, following a riot, in which five persons were injured by street car strikers and their sympathizers. The riot was occasioned by the running of street cars after unionite leaders and the company officials had signed an agreement.

According to the agreement, all who were on the pay roll of the company Sunday, the first day of the strike, were to be "returned" to work. Those who were discharged prior to that time were to be accepted back on application, and the company was to make no distinction between union and non-union men.

After fifteen cars had left the barn, union men began to collect on the down-town corners and as fast as the cars would come up, the unionists would swarm into them, demanding that motormen and conductors show union cards and the road was completely blocked.

One conductor, attacked because he carried no card, was severely beaten up and four other persons, more or less seriously injured. All those injured were arrested, but members of the mob were not molested.

The police and sheriff's force are unable to cope with the situation and Gov. Bruce, was so informed at 7 o'clock tonight. That Oklahoma City is tired of the strike was evidenced by the aviation that the first car received as it ran down Main street.

The lower House of the Legislature, almost in a body, rushed to the windows of its hall and cheered the first car. Just then some one shouted "scab" and within ten minutes, twenty-five hundred persons had collected about the car. One company of the State militia, which has quarters here has been mobilized, but probably will not be needed tonight as all cars have been run to the barns and no further attempt to run them will be made until tomorrow.

The carriages, according to Police-

man Russell, who seized them, were shipped by S. H. Field, a clover-

leaf man, who asserted he had sold them to some person, whose name he could not remember, but who often bought large quantities of ammunition for shipment to San Domingo. Fieldman told Magazine Hidalgo in the Butterfield street station, he had a number of small cartridges and it is likely they will be returned to him.

Morris Gerber of No. 174 South street, Antonio Lorenzo of No. 774 James street, and Frank Abevino of No. 44 High Street, all residents of Manhattan, who were in the wagon and who were arrested by Russell, were discharged.

The Coast line officials of the Santa Fe have been invited to be the guests of the show management on that day, and have accepted and will be attending at the show probably in the afternoon.

Arrangements have been made to give the tourists who arrive in California, the California Line, a chance to see the orange show. The train is due in San Bernardino at 12:15, and will be stopped here as long as necessary to permit the passengers to see the show.

Automobiles will meet the train, take the passengers to the show, and show where they will be given a half hour or more to take in the sights. They will then return to the train to take up their journey. The Santa Fe has consented to the stopping of the train for this purpose.

BREACH MAY LEAD TO COURT.

Fight Over Missouri Pacific Leadership Is Hot.

George Gould and Banking Interests at Odds.

Brother Frank Stirs Up the Trouble With Deal.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, March 9.—(Exclusive Dispatch.) After putting up hundreds of thousands in bonus, bonuses and right-of-way and terminals to the Missouri Pacific Company, Farmington, N. M., after a lapse of several years, is tired of waiting and announces her intention of building her own railroad. The proposed route has been roughly laid out and the Farmington, Albuquerque and Gulf Railroad Company organized, enough money having been raised for the preliminary surveys and the right-of-way projects will be pushed.

Present plans call for the building of 200 miles of line from Albuquerque on the west to Farmington, giving San Juan county and Farmington for the first time, direct connection with a main line.

San Juan county has enough bituminous coal to supply the country for a hundred years, a million and a quarter acres of agricultural land open to entry, 40,000 acres under cultivation and water for irrigating 100,000 acres.

It is estimated that the proposed railroad will haul 1,000,000 tons of traffic yearly in coal, coke, lumber and other products.

KENTUCKY AIRING VOTE BUYING Sensational Disclosures Expected to Follow Indictments by Grand Jury Now Holding Sessions.

(BY DIRECT WIRE TO THE TIMES.) LEXINGTON (Ky.) March 9.—(Exclusive Dispatch.) William C. May, attorney of the Thirty-first Judicial District, today stated that a large number of indictments in the vote-buying investigation in Floyd county have already been returned to the grand jury and that he expects between five and six hundred before the grand jury completes its work and adjourns.

Both Circuit Court Clerk and Commonwealth's Attorney May have gone after the alleged vote sellers and buyers in Floyd, Magoffin and Knott counties, with the prospect of rivaling in sensation and extent the Adams county Ohio exposure.

EVEN J. P. HAVE AFFINITIES.

San Francisco Oriental Seeks Divorce From Spouse Who Says Out-Law With Her Soul Mate.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, March 9.—(Exclusive Dispatch.) A Japanese wife with a soul mate, and a husband who offers objection to such breach of the marital contract, have agreed upon at the recent conference for the settlement of the threatened contest for control of the property.

From information in other quarters it is known that the banking interests concerned in the situation are satisfied that Frank J. Gould is acting with the approval of his brother and that the appearance of this committee in the field represents an effort to retain for the Goulds a larger voice in the affairs of the Baltimore firm.

Both Circuit Court Clerk and Commonwealth's Attorney May have gone after the alleged vote sellers and buyers in Floyd, Magoffin and Knott counties, with the prospect of rivaling in sensation and extent the Adams county Ohio exposure.

THE POLICE SEIZE AMMUNITION.

New York Authorities Hold Up What Is Believed to Be Shipment Destined for Insureceto Army.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, March 9.—(Exclusive Dispatch.) Thirty-two thousand rifle and revolver cartridges, supposed by the police to be a consignment to the insurgents in Mexico, were taken from a wagon near the docks in Erie Basin today, in which five persons were injured by street car strikers and their sympathizers.

According to the agreement, all who were on the pay roll of the company Sunday, the first day of the strike, were to be "returned" to work. Those who were discharged prior to that time were to be accepted back on application, and the company was to make no distinction between union and non-union men.

March 8.—(Exclusive)

plumbing supplies, entailing a loss es-

timated at \$60,000, partially insured.

MURDER OVER PEANUTS.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, March 9.—A quarrel over

a bag of peanuts resulted in the pro-

bable fatal shooting of Fred Meyer

in the presence of an after-theater crowd

of men and women.

George Stuart, a relative, barricaded

himself in his house with his wife and

children, and defied the officers and a

big posse of men all night. He was

captured to the woods today, but was

captured. An early rumor that he

had killed his family proved false.

DEAD MAN SAYS AT FUNERAL.

[ASSOCIATED PRESS DAY REPORT.]

OVID (Mich.), March 9.—William Fox-

son's voice was heard at his own funer-

al here yesterday. While his body

lay in a casket those gathered to pay

final tribute heard two hymns by him

and also heard him as one of a trio,

including his son and daughter, in sac-

red song. When the mourners had gath-

ered in the parlor of the Foxson home

in which his open coffin lay, they were

surprised to hear his voice pealing an

anthem from behind a screen of flowers

and palms. Three years ago, believing

his life was nearing its close, Foxson

conceived the idea of preserving his

voice to be a part of the service when

he died. He used a phonograph, and the

records were reproduced before he was

buried.

Accident at Jordan, Mono County,

Destroys New Power House and

Sweeps Workmen to Their Death.

[ASSOCIATED PRESS NIGHT REPORT.]

CARSON (Nev.) March 9.—According

to messages received here today,

the new powerhouse of the Hydro-

Electric Company, at Jordan, Mono

County, California, was destroyed by a

snowslide which struck the plant yes-

terday morning, wrecking the build-

ings and killing eight men and injur-

ing several others. One body has been

recovered.

Relief has been sent from Bodie and

Mono Lake to assist in recovering the

bodies.

Besides destroying the plant,

the slide carried away much of the flumes

and ditch connected with it. It is

believed the slide was caused by the

recent fall of heavy rain on the deep

snow.

The new power plant was to furnish

electricity to Aurora, Rawhide and

other central Nevada mining camps.

particular kind or at any particular place or at all shall be construed, held considered or treated as property or as constituting a property right.

"Under the Constitution of the State of California, one of the first declarations in the Bill of Rights, men are by nature free and independent and have certain inalienable rights, among which are those of acquiring, possessing and protecting property and pursuing and obtaining safety and happiness."

"The right of protecting property is therefore an inalienable one, which is as dear to all Anglo-Saxon people as the right of life and liberty itself. We deny that it is within the power of the Legislature to prohibit an act to say what is and what is not property. The right to carry on business if that business be a legitimate one is inalienable. The good will of a business owned by an individual, a corporation, an association, or a company, is also property, as is property from time immemorial." In this report, we consider Senate Bill No. 965 an invasion of constitutional rights and an assault upon the rights of property and we therefore respectfully recommend that the bill not pass."

#### ANTI-INJUNCTION MEASURE.

HARD FIGHT IN PROSPECT.

[BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, March 8.—[Exclusive Dispatch.] By a vote of 8 to 7, the Judiciary Committee has sent the Caminetti anti-injunction bill, prepared with San Francisco unities, to the Senate with a favorable report. All the southern Senators voted against it and Senator Gates presented a report for the minority offering amendments that intended to remove some of the measure that might validate picketing and abrogate the doctrine that good will in business is a property right. The fight on this bill will be most great, as the bill on the eight-hour bill and it is not less revolutionary in its character.

At Sacramento.

#### OPTION MEASURE CAUSES TURMOIL.

DRAMATIC SCENE ENACTED ON FLOOR OF SENATE.

Fierce Parliamentary Fight Waged Over Naming of Conference Committee—Lieut.-Gov. Wallace Reclaims Fight Waged on His Election, Will Fulfill Pledges.

[BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, March 9.—[Exclusive Dispatch.] A request by Senator Juillard that Lieut. Gov. Wallace conform to precedent and custom, in naming a free conference committee on the Wylie local option bill this afternoon brought on the most dramatic scene that has been witnessed in the Senate this session. For nearly an hour parliamentary points were argued, and point after point of order was made. In the end Wallace ruled that all the points of order were well taken, except the one against Juillard's request.

"I ask that this Senate or any member of it has the right to request the President to yield to advice or recommendation," Wallace held.

The question raised by Juillard, who led the fight that substituted township option for county option was that Wallace is required under precedent to name two from the prevailing majority and one of the minority on the committee. If this request had been acceded to, Wallace would have named two township unit men and one county unit man, with the result that when they met with the conferees from the Assembly there would be a deadlock again and no option bill, as the Assembly committee is constituted in reverse proportion.

The parliamentary dispute was hot, and it was Wallace who sustained throughout by the clear-headed posts of Tim of Lille. Wallace declared the purpose of the request was to accomplish by indirection what could not be accomplished directly, as it was impossible to get both houses to agree on an agreement, either to amend or to accept the bill as it stands.

It was agreed that the bill as it stands is unconstitutional and that an amendment to the bill had been returned and also that an arrest is imminent.

#### LASHER CASE CAUSES MIX-UP.

Deputy Sheriff Charged With Contempt of Oregon Court May Go Free Despite His Action.

[BY DIRECT WIRE TO THE TIMES.] PORTLAND (Ore.) March 9.—[Exclusive Dispatch.] Charles A. Barrett, who is held by the police of San Francisco, was indicted by the Multnomah county grand jury this afternoon on a charge of receiving stolen property, consisting of eight bars of gold valued at \$7000, in Portland.

The case involves the daring theft of \$56,000 in gold expressed on the steamer "Hawaiian" from Fairbank, Alaska, last September at which time there was also stolen a sack of United States mail from the same ship, the sack containing \$18,000 worth of gold.

The arrest of Barrett was made in connection with the testimony of several persons who were supposed to have been involved in the big robbery.

As Barrett is charged with receiving a portion of the money while in Multnomah county, his case will be tried here.

Others will be in San Francisco and perhaps still others will be tried in Seattle.

As soon as the indictments had been returned steps were taken to bring Barrett back to Portland. It is expected that he will be tried here.

It was agreed that the trial date will be set for April 10.

The question raised by Juillard, who led the fight that substituted township option for county option was that Wallace is required under precedent to name two from the prevailing majority and one of the minority on the committee. If this request had been acceded to, Wallace would have named two township unit men and one county unit man, with the result that when they met with the conferees from the Assembly there would be a deadlock again and no option bill, as the Assembly committee is constituted in reverse proportion.

The parliamentary dispute was hot, and it was Wallace who sustained throughout by the clear-headed posts of Tim of Lille. Wallace declared the purpose of the request was to accomplish by indirection what could not be accomplished directly, as it was impossible to get both houses to agree on an agreement, either to amend or to accept the bill as it stands.

It was agreed that the bill as it stands is unconstitutional and that an amendment to the bill had been returned and also that an arrest is imminent.

#### DISCUSES POLITICS.

After clearing the points and asserting his right to name the committee without qualification, Wallace ventured on an explanation of his position. Two years ago, he said, on the podium of the Assembly in the fourth section, the swingman, he was under guard may

be evidence.

Then Wallace turned to Juillard and began a discussion of the campaign last fall. Wallace said he had the object of opposition by the very men who oppose local option; that he had made it a campaign issue.

Therefore, he believed, he had a duty to perform to those who supported him in this issue.

This duty meant he would favor the committee.

BUREAU OF INFORMATION. Times Office, No. 521 South Spring street.

**NEWS AND BUSINESS.**

Trotter Will Speak.

Mel Trotter will speak at the noon service held at Cline's Broadway Theater today. His subject will be “From Gutter To Throne.”

Lecture on Suggestion.

“The Power of Suggestion,” will be the subject of an address at the Y.W.C.A. today at noon, from 12:30 till 1 o'clock, by Prof. J. J. Hill of the University of Southern California.

City Clerk to Speak.

L. A. Handley, for several years a professor at Occidental College, but now City Clerk, will deliver an address before the students of Occidental this morning at 11 o'clock. His subject will be: “Forging Ahead.”

G.A.R. Open Meeting.

The three Grand Army posts of the city and the Woman's Relief Corps had a joint open meeting this evening at Mullen hall, No. 517 South Broadway, in honor of Department Commander Hawk and staff, and Past Commander-in-Chief Van Sant, ex-Governor of Minnesota.

Wreather's Meet.

The Oregon Society will hold a meeting this evening in the office of Edward E. Selph, the secretary. No. 422-28 American Bank building, for the purpose of electing five delegates to the annual meeting and election representatives in the Federation of State Societies.

From Green to Red.

There is to be a change of color on the interurban cars operated on the Los Angeles Pacific lines. The cars will be repainted red to correspond with the color of the cars run by the Pacific Electric, also controlled by the Southern Pacific. The present color is green. Los Angeles Pacific cars is green.

Tiny Tots Give Fairy Play.

The Cambria Parent-Teachers' Association held a meeting yesterday at the Cambria-street school, at which an address was delivered by Mrs. Chambers Smith, on the work of the association. The children of the first grade gave a fairy-tale play, which had been dramatized by their teacher, to the delight of the older folks, as well as of the children.

Temple B'nai B'rith.

Judge Julian W. Mack of the Federal Court of Commerce will speak tonight at the Temple. Sabbath services will be conducted by the Rabbi Dr. Hesch at 8 o'clock this evening, and tomorrow at 10 a.m. Interurban service tomorrow morning at 8:45. The Purim festival of the Sunday School connected with congregation B'nai B'rith will be held at Goldberg-Bosley hall, Sixteenth and Flower streets, tomorrow evening at 7:30 o'clock.

Animals in Mud. Contractor Fired.

P. A. Peterson, was yesterday fined \$100 by Justice of the Peace, being convicted of a charge of cruelty to animals, preferred by H. S. Fowler. Peterson is a section manager for Contractor Quayle of Palmer, McBride and Quayle, and the offense took place at Caluenga Pass. The testimony showed that the animals had been obliged to stand continuously for three days and nights in five inches of mud. The defense put forward by Peterson was that owing to the heavy rains, it had been impossible to find a dry spot to shelter the animals.

Young Traveler “Taken In.”

A young man who gave the name of Harry Kramer told the police yesterday how he was “taken in” to the extent of \$70. Willie said he had just arrived from the East Wednesday night and not knowing the city, agreed to take a room in a hotel with Kramer whom had met on the train. Willie said he didn't know what the name of the hotel was or what part of the city it is in. He thought however, it was over here. But the detective didn't see any hotel, so they decided that Willie's \$70 had gone for good. The train acquaintance woke up before Willie did yesterday morning.

**BREVITIES.**

To let—finest daylight office in city, 18x27 feet, second floor just off Chamber of Commerce building; rent reasonable. Inquire of M. E. Hill, agent, 116 So. Broadway.

**FASHION SHOW.**

Special Number of “The Times” Thursday Morning of Next Week.

The United Fashion Show, the most gorgeous event of the year in Los Angeles, will open Thursday, March 16, and continue three days. The Times will issue a beautiful fashion show number on the opening day, the 16th inst. There will be local models as well as Parisian styles. In the pictures, and the store news will be attractively written. Page after page will be devoted to the stunning features of women's and men's garb and toggiery, which spring brings forth.

New Jokes!

**LOCAL MINSTREL SHOW PLEASES.**

EVERY SEAT IN GAMUT HALL HAS AN OCCUPANT.

Sixty Men From Big Clothing Store Appear in Chorus Behind a Dozen Stars and the Audience Is Kept in an Uproar—Benefit for Barlow Sanatorium.

Not a single seat went begging for an occupant in all of Gamut Hall at the minstrel show of the employees of the Mullen & Bluet Clothing Company yesterday evening. Inclement weather failed to check the ardor or enthusiasm of the large and appreciative audience, though the curtain and applauding from the rise of the curtain upon nearly a hundred minstrel men, to the final drop on a pair of Orpheum stars, Nell Lockwood and Hazel Bryson.

Sixty men—count 'em, did you?—sat in the chorus grouped to the rear of six tambos, six bones and one massive red-haired interlocutor, a certain “Misfit” Brown, with the surname of “Boys” who was the butt of many a malicious jest at the hands of the dozen jokers. An amateurish sketch goes, that of Mullen & Bluet ranked high. The talent was all good, the jokes bright and some perfectly new and the chorus singing was of the very lusty harmony variety.

John Gates, billed as the pride of the pant department, opened the solo work with “I Won’t Be Back.” Till Andrew Muller, a tall, burly boy, who had been a jester in the show, stepped in. That “Want is Love.” A one-time actor for poetic honors, R. L. Sutton, who wrote some of the doggerel appearing in the advertisements of the big store, succeeded in harmonizing “Sugar Moon.” “I Lend You Anything” was interpreted by Ernest Crawford.

George Ragland, a hot sport, nearly made “Winter” while Andrew Muller, handsomest of the lot, succeeded in “Bring Me a Merry Little Christmas.”

## MELTED SNOW SWELLS RIVERS, RIPS BRIDGES.

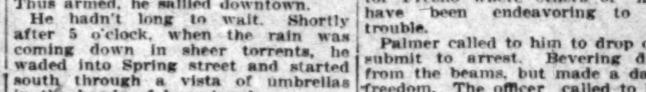

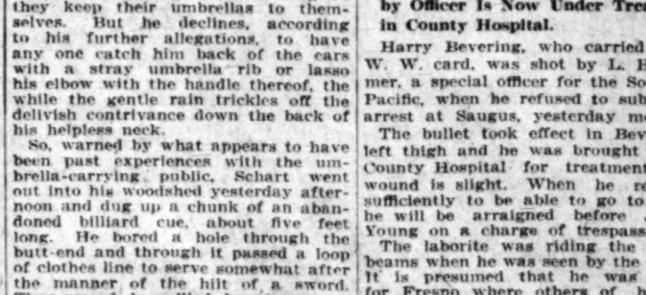

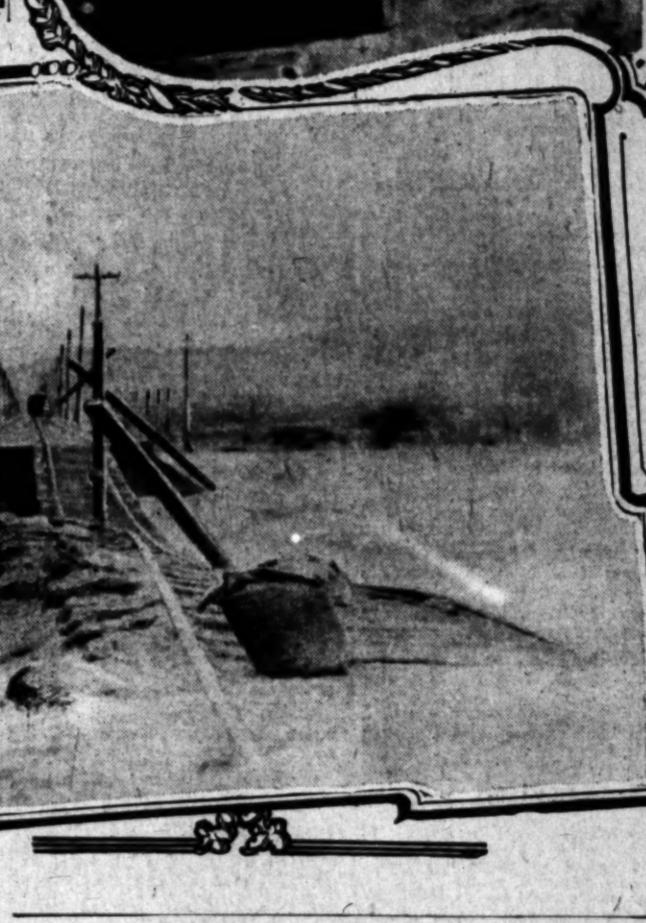

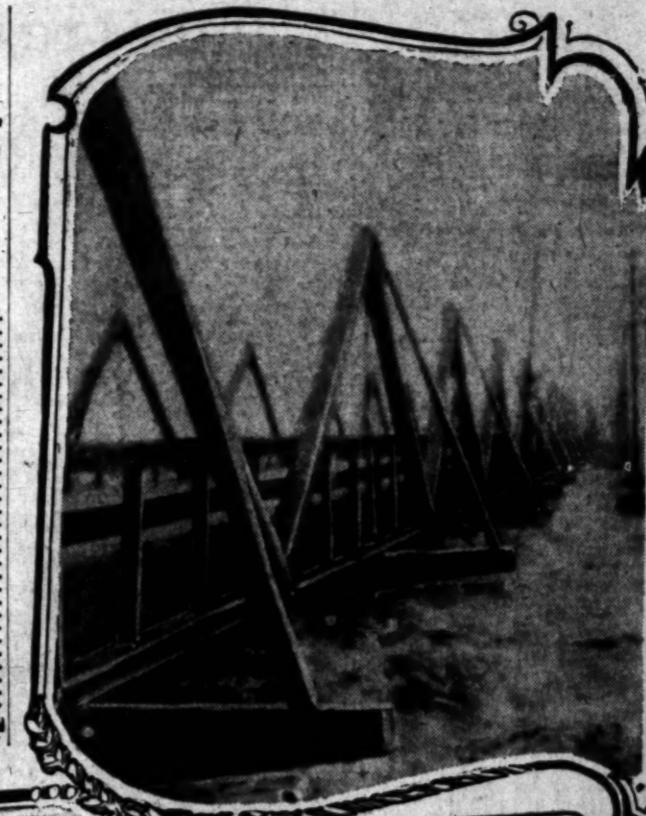

*Worst Flood in the History of the San Gabriel Valley. Tremendous Wall of Twenty Feet of Muddy Water Rushes at the Speed of an Express Train—Great Erosion in the Lowlands Among the Ranches.*

**A** WARM, persistent, and at times violent, rain, which was heavy in the mountains, melted an immense volume of winter snows accumulated in the heights and resulted yesterday in swelling many of the Southern California streams above record flood levels.

The rainfall for the storm in Los Angeles for the twenty-four hours to 5 o'clock p.m. yesterday was 1.85 inches, making 15.52 inches for the season. A reading of The Times rain gauge late last night showed an additional fall of .36 inch.

The San Gabriel River tore out bridges and spread alarmingly over neighboring lands, threatening to wash the fertile soil from ranches. At some points ranchmen patrolled the banks so that at the first break of the stream from its banks they might make a desperate effort to save their household effects.

Several escapes from drowning were reported, two of them at El Monte. In one case a man fell into the stream from one bridge and was hauled out by rescuers at a bridge farther down stream.

**Los Angeles Daily Times**

EVERY MORNING IN THE YEAR.  
Daily, Sunday and 22-Page Illustrated Weekly  
Magazine. Founded Dec. 4, 1881. 28th Year.

BUSINESS OFFICE AND EDITORIAL ROOMS,  
521-523 South Spring Street.

LOS ANGELES (Loco Ahng-hay-lais.)

Entered at the Postoffice as mail matter of Class II.

#### WISE LIMITATION.

Under a recent law enacted in Nevada an offender sentenced to die may elect to be hanged, shot or poisoned. It is well to limit the choice to three methods, or he might choose to die of old age.

#### NOTICE TO TROOPS.

Notice is hereby served on troops in the Imperial Valley to be careful not to tramp down the cotton crop and myriads of other growing crops that are now heading for a harvest to beat the band in that fertile and productive part of our commonwealth.

#### QUALIFICATION.

If the suffragettes are to have the ballot we are for Miss Jane Adams for the Presidency. She says she never in her life spent more than \$10 for a new hat. That would be a strong argument with father. But would Jane be the same if she left the village?

#### UNUSUAL.

At the risk of hearing a tourist laugh we desire to state positively that the weather we have been having for many days past is decidedly rare for Los Angeles. We haven't had so much steady rain since the spring of 1869 when a rich old colored lady, here resident, gave a lot of money to relieve the victims of a flood in the Los Angeles River.

#### THE DEFI OF BERTHOLD.

"Gen." Berthold, who is probably neither an American nor a Mexican, announces that he stands ready to fight the troops of both nations if necessary. If the soldiers on both sides of the international line will throw away their guns and enter into a mouth-against-mouth contest with Berthold we will wager a large sum against a doughnut that he will rout the combined forces in less than forty-eight hours.

#### MOTHER ENGLAND.

The cable dispatches announce that England, commonly known as "The Mother Country," is again excited because our government is mobilizing troops on the Mexican border. England has always thrown fits whenever this nation has done anything of that kind, but in the present instance she is probably thinking of Champ Clark's joke and fearing that next thing we do will be to string some soldiers along the Canadian border.

#### WHERE THE TRAILS MEET.

Surely if there were ever a place on the face of the earth where all the trails of the world meet, that place is Los Angeles. In the course of any given year this city entertains more distinguished men and women than any other spot on the globe. Just now we have been extending the glad hand to Sylvia Pankhurst. Jacob Riis comes next and Col. Roosevelt is on the way. John Burroughs ducks in and out upon us from Riverside. Army and navy celebrities come and go, not to speak of orators, sages, poets and captains of industry.

Leaving a popular folk out of the discussion, if an ordinary man desires to see an old boyhood friend from any other State in the Union or from any foreign land, all he need do is to stand awhile on a Los Angeles street corner and the old friend will in due time put in an appearance.

#### GOOD AND BAD.

Locally, at least, the Irish no longer beat the Dutch. Of ten new-made citizens in Los Angeles this week only one was a native of the Green Isle, while the other nine came from Germany. Citizens from abroad are like the citizens native born. They are not all good and they are not all bad. They strike a happy average. Perhaps a man possessing the get-up-and-go that leads him to a new land knows enough to try to better his condition and has the energy which is at least one qualification of success. In the same way the West has always attracted the cream of the East and of the Middle West. Usually it is the comparatively young man, with most of his life before him, who will turn his back upon the home of his youth and take chances in a rich, inviting country, holding for him the large possibilities of his ambitions. Thus it is that among the assets of California and all of the Southwest none is greater than its sterling manhood.

#### THE PRIMITIVE.

One man in this city is suing another for damages in the sum of \$25,000 for stealing the affections of his wife. It sometimes happens upon this sorrowful star that men and women bring one another the awful shock and heartache of betrayal. When this is so neither murder nor civil suit can mend the lives that have been broken upon the rock of passion. Vengeance cannot satisfy and surely money can never do so. Payment is made in a sort of eternal coin and the angering is as much to those who do the wrong as to those who are wronged. It is one of the pitiful tragedies of life having its root in those weaknesses of humanity which lead to every kind of untruth expressed in the innumerable follies of mankind. The primitive man will go on slaying those who seek his undoing and a weaker type will go on seeking financial satisfaction; the unwritten law will go on holding in contempt the man who suea for money; but until the race finds a common heart of integrity and men and women

#### THE MEXICAN SITUATION.

The yellow press, the sensation mongers of the country, are trying their best to shriek this country into a quarrel with Mexico. To this end they are mistaking and misrepresenting the purpose of President Taft in ordering the mobilization of our troops on the frontier.

The Mexican authorities fully comprehend the purpose of the United States in placing an army on the border, and they are not borrowing any trouble about it. Without the presence of such force there would be violations of the neutrality laws that might give occasion to the Mexican government to rightfully demand a large money indemnity from this country, and our government would fall of its duty if it did not take measures to protect our sister republic from the depredations of the adventurers, the rustlers, the chicken thieves, the Industrial Workers of the World and the companies of blackguards who, from all parts of the United States, are flocking toward the Mexican border intent on pilage.

The Mexican insurgents are mainly composed of tramps and bandits whose principal object is plunder. They will not—if the American frontier shall be inadequately guarded—confine their depredations to the Mexican side of the line. They will, unless prevented, cross the Rio Grande and loot every American border town from the Gulf of Mexico to the Gulf of California. It is to protect the lives and property of both Americans and Mexicans living on the American side of the border, and to enforce the neutrality laws, that American soldiers have been ordered to the Sonora and Chihuahua line.

It has been the openly-expressed threat of the "reds" that, after pillaging Mexico, they would proceed to despoil the "nabobs"—meaning every man with a few hundred or thousand dollars' worth of property, every industrious and thrifty citizen—on the American frontier. But all the powers of the American commonwealth will be enlisted, if need be, to prevent the sons of anarchy on any foot of American soil.

#### UNCONSTITUTIONAL LAWS.

The Constitution declares that no person accused of crime shall be compelled to give evidence against himself, but the L. R. solons at Sacramento are proposing to enact an amendment of the Criminal Code that will compel the defendant to testify. It is true that the proposed law will provide testimony of a defendant, when given under compulsion, shall not be used against him. But this will not protect him, for, while his evidence thus obtained may not be directly used against him, yet the information procured from his compulsory testimony will often disclose facts of evidence of which may be obtained from other witnesses.

The Constitution declares that every man on trial for crime shall have a right to be confronted with the witnesses against him, but the L. R. solons at Sacramento propose to so amend the Code of Criminal Procedure as to dispense with the personal attendance of a witness and allow evidence taken on a former trial to be read to the jury.

That too much laxity has been practiced in our criminal courts and too many unsubstantial technicalities have been permitted to obstruct and sometimes to baffle the course of justice, is doubtless true, but a remedy that would strip even a murderer or a thief of those rights which the wisdom of centuries has declared to be necessary for his protection in Anglo-Saxon courts would be worse than the disease which it is sought to cure.

The Times has no sympathy for "undesirable citizens" and little tolerance for their unlawful acts, but it believes that the laws governing the punishment of crime may be made effective without violating our organic law.

#### SOCIALISTIC FOLLY.

If it were possible to stop the first 100 men one meets on Broadway or Spring street and question them concerning their history and their condition and receive correct replies the result would be a demonstration of the inequality of fortune which exists in civilized society. There would be one or two millionaires, there would be four or two whose families are starving, and probably more than fifty in a state of anxiety as to the method of obtaining their daily bread.

How did these inequalities of condition come about and by what process is it possible to remove them? It is not possible to remove them by law, for they are the result of personal characteristics and not of social organizations. The cities are full of millionaires who began life with no other capital than their hands and their brains, and among the paupers may be found many men who began life as rich men's sons.

Our form of government gives to every child born or brought here that which Europe denies him—equality of opportunity. Seven out of sixteen Presidents of the United States—Jackson, Lincoln, Johnson, Grant, Garfield, Hayes and McKinley—were born of humble parentage, each inherited no fortune, each pursued in early life laborious occupation and each was, in the main, self-educated. The multi-millionaires—the captains of industry and kings of finance—were all poor boys. John Jacob Astor was a peddler, Cornelius Vanderbilt was a boatman, Jay Gould was a surveyor, the Arnolds were farmers' boys, C. P. Huntington was a clerk, Rockefeller was a bookkeeper, Carnegie was an iron worker, and Mackay was a working miner.

The list of men who have made their own great fortunes or achieved distinction in politics, in literature, in science and in art without adventitious aid from any source might be lengthened indefinitely and it is a list which offers an unanswerable argument to the demand of socialism as expressed in the formula "that each man shall have according to his needs and each man shall do according to his abilities."

The equality of condition that would be produced by making the industrious share the results of their industry with the slothful, the economical divide with the spendthrift, and that would manacle Abraham Lincoln or Theodore Roosevelt with the California insurgents who are misusing their initials is an equality of which socialistic dreamers may dream, but it will never come

## Just a Warning.

#### A WORD TO THE FOREIGNER.

When a foreigner comes to the hospitable shores of America to enlist our sympathy for some cause wherein the American nation is not directly interested, in his attempts to move our hearts or loosen our purse strings, he is very apt to fall into one of two errors. He may expect to impress us with his hyperbolic and sudden affection for our surroundings and our institutions, when we know all the time that he is too new to the country to have explored the one or to understand the other. Or he may think to work upon our national pride by belittling the country to which he belongs and by drawing comparisons disparaging to his own kith and kin.

In either case he will fail of his object. No nation is so quick to catch the note of insincerity in the mouths of its critics as are our shrewd common-sense republic.

We represent the obvious flattery of the favor-seeker with its implied, slur on our mother-wit, while as intense lovers of our own country, we feel only contempt for the man who disfigures the land of his birth to carry favor with another people. For the same reason the abuse of the foreigner slips away from us like water off a duck's back. Possibly he may see faults in us of which we ourselves are not aware, or find virtues in us which we ourselves had never suspected. Such being the case, let him point them out to us in a frank and open manner; then if convinced we are ready to acknowledge our newly divulged transgressions, or to blush coyly at the sudden unfolding of our unexpected virtues. All we ask is that our critics approach us in a spirit of sincerity. We are always ready for an amicable exchange of views with our friends or an open rough-and-tumble with our enemies. There is absolutely no spite in the American make-up.

We have forgiven Charles Dickens his ridiculous and overdrawn pictures of American society; there was no malice in them; he was a born caricaturist and couldn't help it; but we are not so likely to forget the unsportsmanlike conduct of Lord Dunraven over the defeat of his yacht, while we hardly notice the sneers of a writer like Rita, the beloved of British butlers and French chambermaids. So, when modern crusaders, whether they be pleading for the Jews in Russia or the patriots in Ireland or the voiceless feminines in London, seek to enlist our sympathy for their various causes, it behoves them above everything else to be sincere; not to try and wheedle us with flattery of ourselves or to impress us by speaking disloyally of the race to which they belong. John Redmond has endeared himself to the hearts of the American people because he always put his own country first. He spoke of Ireland as we would wish an American to speak of America when addressing an audience of foreigners; as an Englishman should speak of England or a Frenchman of France. These are the foreigners who, when they become naturalized, will be the most loyal and staunch defenders of their adopted country. While they will not forget to keep a warm spot in their hearts for the old country of their birth, they will stand honestly by the new country to which they have wedged their lives and their abilities, remembering their family injunction, that a man shall leave father and mother and kindred and cleave only to his wife.

The loyal Saxon or Teuton or Celt will make a loyal American when he swears allegiance to his new country. Socialists and laborites and trouble-breeders were never true to the land of their birth or their adoption. Uncle Sam asks for loyalty and sincerity, and his hospitable gates are open to every worthy home-seeker. He is like Thoréau's man who lived in a hollow tree. "I sat at table," he said, "where we were rich food and wine and obsequious attendance, but sincerity and truth were not; and I went away hungry from the inhospitable board. I called on a king, but he made me wait in a hall. There was a man in my neighborhood who lived in a hollow tree.

WALT MASON.

Copyright, 1911, by George Matthew Adams.

The reclamatory ventures should be stopped and turned over to the people who will be benefited. It would be cheaper to give them now to the men who will be benefited than attempt a governmental control for a single day. The system of landlordism introduced by "forestry" rules, leasing of resources and construction of irrigation

#### THE COSTLY BLUNDERS OF "RECLAMATION."

BY COL. ED. F. BROWNE.

The report of the United States Senate Committee on the blunders of the Reclamation Service published in Sunday morning's Times may surprise many people, but that scathing criticism fails to show how utterly impracticable the men have proved to be who originated this scheme of fraternal socialism and how incompetent are most of the employees engaged in construction. The committee hints at a probable loss, while it is plain to anyone knowing conditions that the people will lose about \$35,000,000 by these foolish speculations. This bureau was one of the pets of the last administration and, along with "Forest Reserves" and "Conservation of Resources," was a favorite bid with the "new national" theorists. It was fathered by the schemer Newlands, misrepresented by Pinchot, permitted by the weak Garfield, and pushed by the impulsive Roosevelt into an apparent position entirely opposite to what has been achieved by results. Were the loss of \$35,000,000 the only unfortunate feature, it would be bad enough, but these governmental bungo steers have misled many poor farmers and will ruin more deserving men who may attempt to meet the conditions imposed.

A few years ago when I called attention to the fact that the Truckee-Carson venture was a failure, after its completion, many of my friends accused me of allowing my anti-socialistic feeling to prejudice my business judgment. I was the first to call attention to this ridiculous "blunder" and when I found out that Newlands had sold 6000 acres of practically worthless desert land to the government for "reservoir purposes" at \$5 per acre I was convinced that the "father of the Reclamation Service" would not lose anything, even if the people should lose nearly \$4,000,000 invested.

The Truckee-Carson venture is now to be further exploited through the use of a clearly unconstitutional fund provided by the last Congress; the loss on the venture will ultimately be about \$5,000,000, even if the people of California allow Lake Tahoe to be drained into the Truckee, because the lands to be improved certainly do not amount to 50,000 acres, although the reclamation engineers estimated 300,000 at first. Over 200,000 acres across the Truckee-Carson venture would not even raise weeds if Lake Superior was run over it twice a month, because it is straight volcanic ash with a hardpan beneath which would have to be shot with giant powder before it would become porous enough to retain moisture.

No true American can go among the unfortunate farmers who have attempted to locate there and hear their story of hardship and loss without feeling that the most important fraud order Washington authorities could issue should be against the Reclamation Service.

Many men have lost their money, their time and their right to locate government land and some of the poor dupes are today working at day labor because they cannot get away. A private corporation would let them change their location or help them out of the country as they would not want it to come out that their customers had been deceived; but the Reclamation Service, run from Washington under ironclad rules established, fixes it so that if a locator defaults he is lost. That is all.

It creates a local tyranny repugnant to American ideas and will necessarily end in disaster. I have examined several of these ventures and there is not one but which becomes ridiculous when considered in a business light. The law plainly states that the reclamation fund was to be used to reclaim arid government land and two-thirds of the expense incurred to the present time has been to assist land owners who had located more land than they could afford to irrigate themselves or lands long passed from government ownership through purchase or grant.

The Roosevelt dam in Arizona is a comical financial tragedy for the taxpayers, but a glorious private snap for the land speculators around Phoenix.

The people here advanced about \$3,000,000 to a lot of land sharpes in the Salt River Valley, charging no interest, and the land speculators have agreed to pay back the money in ten installments.

There was no poor man benefited by the trade and no government land to locate under the venture.

The payments will soon become a burden and I warn those fellows that when the time to pay does come they will find that the government will use no discretion in collecting; it is "cash" or off goes your water. I predict that one-third of the land under the Roosevelt dam will default.

The other venture tributary to Los Angeles is the Laguna dam above Yuma. This dam turns the water out of the Colorado River onto an Indian reservation on the California side, and just below Yuma the intent is to carry it across the river into Arizona by an inverted syphon or tunnel.

The remarkable engineers (?) have supposed that the sun-baked layers of sand exposed below Yuma were sandstone, and that the tunnel beneath the river would be in sandrock. They will find that their tunnel will be in quicksand and alluvium. They already have "lost their shaft" in miners' parlance, in Arizona, and the cost of this venture will be double what was estimated if it is made successful at all.

The reclamation engineers have proved to be the limit on "guessers," however, when estimates of expenses are considered.

In Colorado the Gunnison tunnel was estimated at a figure which appeared so ridiculous that every man used to tunnel work refused to even bid or consider the matter. The engineers estimated that the work could be done and water furnished at about \$25 per acre and farmers signed an agreement to pay that amount. The tunnel cost \$2,500,000 more than the estimate and I have letters from Senator Teller of late date saying that he believed the land would have to pay from \$100 to \$125 per acre. The remarkable engineers say \$95 per acre, which is, of course, wrong.

Now, it is no trick to build a big dam, if you have the money, and run water through ditches onto land below, but these government engineers forgot to figure whether the land was worth the expense incurred.

In the Yuma venture I am frank to say that, to my mind, there must be some kind of lunatic developed when I hear of a man paying even the \$10 per acre asked for government land under the Laguna dam and expending \$25 per acre to level for irrigation and then agree to pay \$65 or more for water, if he gets it.

The reclamation ventures should be stopped and turned over to the people who will be benefited. It would be cheaper to give them now to the men who will be benefited than attempt a governmental control for a single day. The system of landlordism introduced by "forestry" rules, leasing of resources and construction of irrigation

#### Pen Points.—FRIDAY MORNING INFORMATION.

The engineers are at work on the streets of Maine. Why don't they do more? Subscribers, and Newsreaders, Agents and the Public about spell. By the way, the Industrial Workers at their old tricks.

Really there will be more in the line of reciprocation out.

At this distance has again lapsed.

It was to be expected that Assembly would be held.

REGULATIONS: Daily and averages 18,000,000,000 for 1910; 18,200,000,000 for 1911; 18,400,000,000 for 1912; 18,600,000,000 for 1913; 18,800,000,000 for 1914; 19,000,000,000 for 1915; 19,200,000,000 for 1916; 19,400,000,000 for 1917; 19

## Pen Points: By J. W. ROBINSON

TODAY MORNING INFORMATION.

The engineers are now at work on the Reclamation project. Why don't they do more? They are not doing their duty.

Up at Minneapolis they are still at work. By the way, who is the man?

The Industrial Workers of the World are still at their old tricks, trying to stir up trouble.

Really there will not be much of the line of reciprocity between us and them.

At this distance it seems to me that the line of reciprocity has again lapsed into the old groove.

It was to be expected that the Assembly would throw the bill over.

No one is in a position to stand up to the bill.

The honey in Dr. Willard's is guaranteed to be absolutely pure.

It is quite possible that the esteemed neighbor, Fredrick, is right.

Why doesn't someone tell him that they might be successful in their campaign until 1912—if we don't let him go.

Of course, if Mayor Alvarado tends the Italian celebration he will be expected that he will do the same.

We are expecting many men to make a speech on the purpose of the United States.

According to the latest news the shouting will die down by March 18. We've had enough to think!

If Stephen C. Foster were to write a southern diry for the Lees of Tennessee, what a situation it might make!

In caring for some of the women who have been left at home but did not prove to be popular.

More hard luck for Superior Fisher, who is a member of Bullinger, Giff, Fischer &amp; Co., a well-known firm.

"Canalies" New Canal headline which remains in the neighborhood which makes it difficult to recognize a crisis in the city.

Tropico is getting off easier class and the town is now a city of quality it is easily seen.

There are three in that list of twenty-five who have not yet been able to get into the English language. Who will suggest the name?

Col. Bryan insists that he remain in Texas to govern the proposed Territorial Government in Nebraska to be postponed.

March, old west, records in the railroads in the country. The wet spring of 1900 down in local areas in our history.

That magnificent sun in San Bernadino, located nowhere in the world, Southern California, in the hands of sightseers.

We do not care to give new Secretary of the Interior a worse mistake than when his party comes to destroy the Washington monument.

Another promise.

LOS ANGELES, March 8.—(To the Editor of The Times:) I write to ask for information as to why the property owners of certain portions of Wilmington should be called upon to pay for the filth to be made from the dredging of the East Basin, when said dredging is now being paid for by contract with the Government? This dirt must be collected somewhere near where the dredging is working, and it seems to me that it would be an accommodation to the dredging company for the property owners to permit the dirt to be deposited on their land.

While the dredging of the basin is the matter.

The United States Asiatic Turkey, reported to be the most prominent among the Chinese subjects.

Herrero, Southern California, a monopoly on that place.

If Dr. Aked, the dentist, who will be compelled to rule by working over the city, is not much to do with that city.

Under the chairmanship of the chairman, the planes will go to the South. They will be since the Civil-War, all over the coast of Mexico, to duplicate the run of the Pacific Coast to Florida. Count them, and the American War? But there are other lords of quarterdeck.

## Events in Local Society

THE quiet of the Lenten period will be broken now and then by an engagement or two, which will add the gay note to the grave, merciful to the close of a brilliant season.

Miss Addie Vera Sandison, who has made Los Angeles her home since she was a small tot, has returned from a fashionable girl's school in the North to announce her betrothal to Tirrell W. Fletcher. This news was told at a luncheon given yesterday by Miss Ruth Gartland. The table was decorated with a handwoven centerpiece of ill of the valley and maidenhair ferns, sent from the Bay City by the happy groom-to-be who also inclosed a beautiful diamond to be used in spreading the news. May has been chosen for the month of the wedding, which will be a large affair. Guests seated at the private table, yesterday were: Mrs. E. W. Sandison, mother of the bride-elect; Mrs. J. A. Bovard, Mrs. T. Devitt, Mrs.

Miss Addie Vera Sandison, of this city, who has returned from Mills College to announce her betrothal to Tirrell W. Fletcher of San Francisco.

George Manfield, Mrs. Ernest Laroc, Mrs. Paul Gray, Miss Helen Spencer, Miss Edna Sandison, Miss Beatrice Chambers, Miss Mabel Lewis, Miss Editha Grange, Miss Hazel Keesler, Miss Louise Bloudeau and Miss Hazel Keesler. Mr. Fletcher is connected with an insurance concern.

**At Seashore.** Mr. and Mrs. Julius V. Seyler, of the Burlingame Apartments, with their guests, Mrs. C. P. Phillips, of Michigan, are domiciled in their cottage at East Newport. They will remain until July 1.

**Visiting Relatives.** Mr. and Mrs. J. Elam Aritz of Dayton, O., are visiting at the home of Mrs. A. W. Gump, sister of Mrs. Arts.

**Club Party.** Mrs. George P. Ford of No. 3007 Grand avenue, had as guests recently, members of the Bougainvillea Club, whom she entertained with a 1 o'clock luncheon. Mrs. Ada Marsh Dalton was assisted by Mrs. Herbert Wright, Mrs. Anna Curtis and Mrs. Frances L. McNeil. Those present were: Mrs. Lena Stannard, Mrs. Rose J. Burns, Mrs. Louisa Swift, Mrs. B. Cook, Mrs. G. Ashley, Mrs. Rose M. Hathaway, Dr. Ann Hoppins, Mrs. E. Kern, Mrs. M. Hubbard, Mrs. L. Raymond, Mrs. J. C. Lee, Mrs. Mrs. F. Hall, Mrs. I. Isidor, Mrs. D. Ritter, Mrs. M. West, Mrs. M. Sutton, Mrs. A. Wilson, Mrs. C. Woodward, Mrs. J. F. Blanchard, Mrs. M. Elliott and Mrs. E. Johnson Bailey.

**Violet Luncheon.** Mrs. William Francis Herndon of No. 138 Whitley avenue, Hollywood, will entertain today with a violet luncheon, in honor of Mrs. George Judd, cousin of Mrs. Stoddard Jess of No. 232 Harvard boulevard. Hand-painted favors and place cards in violet and gold will be used. Guests invited: Robert Rosebury, Mrs. F. Wallace Wellman, Mrs. A. M. Bryant, Mrs. William Mills, Mrs. Ernest Layton, Mrs. Philo J. Beveridge, Mrs. Joseph Kinney, Mrs. Frances Meline and Miss Pearl Herndon.

**Informal Tea.** Complimentary to Rear-Admiral and Mrs. Hutch J. Cone, Mrs. Philip Wilson of No. 384 South Union avenue, will entertain with an informal tea party this afternoon. The guests will include friends of Rear-Admiral and Mrs. Cone.

**Recent Wedding.** In the presence of immediate relatives only, Miss Mattie Florence, daughter of Mr. and Mrs. George Abbott of Westminster, was united in marriage yesterday to Mr. L. Wilson of this city. The service was conducted by Rev. A. M. Pruitt of the Calvary Presbyterian Church, in the new residence of the young people. After the 13th inst., Mr. and Mrs. Wilson will be at home at No. 1215 West Forty-second street.

**Invitations Out.** Mr. and Mrs. John E. Elmore have issued invitations for the marriage of their daughter, Miss Miriam, to Charles O. Goodwin, who will solemnize the ceremony on the 23rd inst., in the Magnolia-avenue Christian Church.

**Expected Home.** Mrs. R. H. Craig of No. 1428 Twenty-fifth street, is expected home Saturday, after a visit of three months with her sister, Mrs. Kenneth Shillie of Phoenix, Ariz. Her absence was prolonged by the serious illness of Mr. Shillie, who has been ill with typhoid, but who is now out of danger, and convalescing.

**Birthday Surprise.** Mrs. R. H. Craig of No. 1428 Twenty-fifth street, was surprised at his home upon his return from town. fragrant flowers and ferns brightened the home. Among those present were Mr. and Mrs. Perry Craig and Mrs. T. Taylor of Long Beach; Mrs. Ida Taylor of Pasadena; Mrs. W. Anderson of Santa Ana; Mrs. G. H. Bradford, Mrs. F. Stites, Dr. J. J. Christie and Mr. J. Wesley Wilson of Los Angeles.

**Entertainment Announced.**

Nussbaum of Glendale. The wedding will be solemnized in the fall. An informal reception will be given on the 19th inst. at the home of the bride-elect's mother.

**Guest of Parents.** Mrs. James F. Fargo of New York City is a house guest of her parents, Mr. and Mrs. George Wilson King of St. James Park. Mrs. Fargo is accompanied by her daughter, Miss Clara.

**Box Party.**

The Misses Rebman of Ocean Park recently returned, with a box party at the Belasco followed by tea at Hotel Alexandria. Miss Anna Kellam was present as special guest and those who made up the party included Miss Orra Wilson, Miss Birdetta Wilson, Miss Dorothy Fletcher, Miss Ethelyn Walken, Miss Alice Arnold, Miss Bertha Duecum, Miss Hildreth Maise, Miss Lydia Kellam, Miss Margaret Woolacott, Miss Ethel Rebman, Miss Rebenant, Mrs. Mamie Moore and Mrs. March Shelton.

**Another Betrothal.** An engagement made known today is that of Miss Bay Solomon to Joseph Schwartz, who is formally announced by the bride-elect's sister, Mrs. C. Simons of No. 472 Centennial street.

**Secret Discovered.** Miss Mabel Quick of Great Falls, Montana, whose secret was discovered by Los Angeles were married December 20, but their closest friends didn't know till yesterday. Mr. Sparks is a son of a wealthy Los Angeles family and went to Great Falls to learn a trade in the smelters. He brought a room at the home where Miss Quick resided, and before he had been long a lodger he became also a lover. There was no love lost, however, for Miss Quick was willing to become Mrs. Sparks at an early date. Sparks' secret was so well-kept that he sought not to marry so young, that he was married secretly. The fact leaked out through the court records. Mr. and Mrs. Sparks will leave Saturday for Los Angeles, where the bride will be introduced into her new home.

**HOBBLE, HOBBLE, TOIL AND TROUBLE.**

**BY DEBORAH.**

She was startlingly thin, and was encased in a tutu which made her look like an acrobatic worm. The angle was even more apparent when she started to climb on to a street car. Her fashionable shoe pitched her forward to an alarming degree, her willow plume hung at half-mast from her flag-pole of a hat, and she paused for a minute with one foot on the pavement and one on the car step, while she interviewed the motor-man with regard to where she wanted to go.

In this pose she was principally knees, elbows, and heels. She was the most remarkable effect in human zigzags.

The angle was even more apparent when she started to climb on to a street car. Her fashionable shoe pitched her forward to an alarming degree, her willow plume hung at half-mast from her flag-pole of a hat, and she paused for a minute with one foot on the pavement and one on the car step, while she interviewed the motor-man with regard to where she wanted to go.

Looking upon her, I realized why the ancients poes that there is a long life in art, like history, reported in itself. This twentieth century woman, with her rectilinear figure, her upright head-dress and her boldness gown, might have just stepped out of an Egyptian frieze. She would have looked more in keeping with a background of the pyramids than with ours.

And everybody knows how exquisitely graceful those Egyptian figures are,

that is what Miss Pankhurst, the militant suffragette said of her visit as she went aboard a train for San Francisco last night.

"I know," she continued, "that you have a much bettering weather here and to be grateful for the essential and refreshing rains when they come. I did so want to see the sun upon the orange trees and on the flowers. Any way I've had a beautiful time every minute of my Los Angeles visit and I would like to stay a great deal longer than my engagements elsewhere will permit."

Chalmers Policy

THE desire of the Chalmers Motor Company is to supply genuine motor cars to sell at medium prices—to build cars which will give all the service any one could ask and sell them at prices within the reach of every prospective buyer.

It has been the aim to build cars that could go as far in a day and get back as surely and safely as any other cars, no matter what they cost—to build cars that would be economical and durable through a long period of time and yet not put the price high.

These aims have been realized to their fullest extent in the

## PLAYER TICO IS SUSPENDED.

National Commission Fines Him Month's Salary.

Says He Deliberately Fooled Detroit Club.

Stands Disqualified Until He Gives Up Wad.

[BY DIRECT WIRE TO THE TIMES] CINCINNATI, March 9.—[Exclusive Dispatch.] The National Commission handed down the following decision today:

In re application for a rehearing of the Detroit club's query relative to the title of player. The decision promulgated on February 7, 1911, Player Tico, over whom there was a dispute between the Detroit club of the American League and the Vernon Club of the Pacific Coast League and awarded to the latter by the National Commission.

Two days after the delivery of the decision, the Detroit club applied for a rehearing, submitting as new evidence, affidavits of O. O. Emmons, its agent; Mary S. Emmons, his wife, and John Perrott, all residents of Oxnard, Cal., the home of the player.

Testimony of the relatives was presented by the Vernon club, including a sworn statement from the player as to the day on which his letter of acceptance of the Vernon club's offer of \$1500 for the season of 1911 was written and mailed.

After careful consideration of this case in all of its aspects, the commission cannot find sufficient grounds for setting aside its former finding and it is hereby reaffirmed.

For deliberately deceiving the Detroit club by its testimony, President Navin several days after he had closed with the Vernon club that he was a free agent, Player Tico is fined \$100 and will stand suspended until the payment of that sum to the secretary of the commission.

August Herrmann, B. B. Johnson, T. J. Lynch, National Commission.

### NO SOX GAME TODAY.

#### HOGAN CALLS OFF CONTEST.

Hap Hogan, manager of the Vernon team, announced yesterday that there would not be any ball game today between Vernon and the Boston Red Sox. Even if there is no rain today the new Washington Park will be too wet for ball playing. The rainy weather has kept all the ball players indoors and all the work-out they got was in walking around. Some of the Vernons amused themselves by playing cards and swearing at the weather. In the club shop bright and early at 10 o'clock this morning the Vernons will play a game with the U.S.C. nine at Bovard Field this afternoon at 2:30 or 3 o'clock. Hogan does not intend to take any chances with his men, however, and they will not be allowed to play if the ground is not in fair condition.

#### BURRELL'S PLAYING.

One of the Vernon men who is attracting attention this year in both hitting and fielding in the early spring practice is "Len" Burrell, third baseman for the team. He has shown very well in the little practice the team has had and seems to be in good condition. Hap Hogan thinks Burrell will have a good year this year and the boy figures to stay with the team for several years if he holds his end up. Last year he hit .240 against the best bunch of pitchers the Coast League ever had and finished with a .260.

He is almost 31 years of age and was born in Syracuse, N. Y. Unlike many ball players he attended Cornell University to take a law course and has a diploma. While at Cornell he took to baseball as a duck takes to water and with more or less success.

He began to play professional ball with the Utica team in 1906, as a third baseman, and in 1907, was drafted by the Baltimore club and played there.

Frank Comiskey started him in 1909 for the Chicago White Sox, but instead of using him, turned him back to the Utica team. Comiskey failing to exercise his option Hogan bought Burrell and this will be his second year with the Vernons.

Hogan thinks that Lennie is a very good ball player and he certainly shows well in the little practice the Vernon team has had so far. He is a snappy little player and always in the game and always trying.

#### MONGOLIAN ATHLETES.

China and Japs Are Practicing at American Universities is the Hope of Making the Teams.

Mongolian athletes are going to figure in American sports the coming season—that is, if the present activity of the Japs and Chinese counts for anything. At several of the big universities in this country there are a number of Mongolian athletes practicing daily with the expectation of proving that they are capable of being given places on the university squads.

At Ferry field, Ann Arbor, Mich., almost any good day one can see six Chinamen practicing all kinds of athletic stunts. It is the same at several other big colleges. Not alone this, but there are more coming: The Kelo University baseball team of Japan is to tour America next summer.

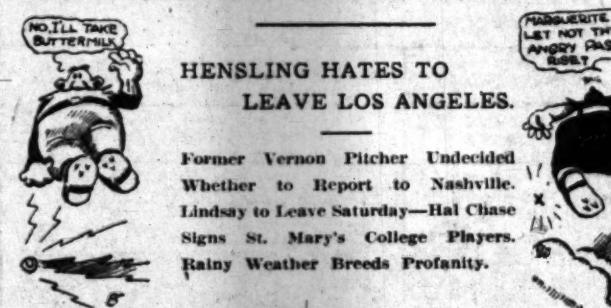

According to present arrangements the team will meet many of the big American college teams. Some one must have tipped off the Japs that there is big money in the wrestling game in this country, for some clever Flowering Kingdom promoter has planned to bring over a troupe of the best Japanese grapplers to give exhibitions of jiu-jitsu and other styles of Japanese wrestling. For the past two years Harvard University has been the home of two crackjack Mongolian athletes. They are Kao Chow Li, a Chinaman, and Musuda, a Jap.

The pair have competed in many events during the last two years and are very popular. The former is a crack sprinter and high jumper while the latter is one of the best gymnasts that ever attended the university. He is also a fair soccer football and baseball player. Members of the university of Wisconsin, a Chinese baseball team which made the trip to the Orient in 1908 and 1910 respectively say that the Flowering Kingdom has any number of crack ball players.

#### May Row Cornell.

The Cornell University management

## BASEBALL CHIPS OFF THE DIAMOND.

### HENSLING HATES TO LEAVE LOS ANGELES.

Former Vernon Pitcher Undecided Whether to Report to Nashville Lindsay to Leave Saturday—Hal Chase Signs St. Mary's College Players. Rainy Weather Breeds Profanity.

Shortstop Johnny Lindsey, of the Vernon team, who was traded this winter, with Hensling, to the Nashville team, for Patterson, is to start Saturday for his home in Kentucky and from there will go to Nashville. Hensling is not anxious to go East and may remain in this State. His transportation is waiting for him at the railroad office, but he has not taken it up.

The principal training camp of the ball teams on the Coast did yesterday what was to sit around in the house and swear. They are working themselves out for the upturn on this stuff.

The Pittsburgh City Council promises to deed to Barnes Drydus a late slice of land for his right field if he can prove that baseball is an art and a science. The easiest way for him to do that is to show his bank books after these were checked up at the end of last season. It is not hard to grab off \$300,000 or \$400,000 for six months work by a lot of hired men, and then one knows anything about anything.

If the baseball magnates desire to increase the attendance at the games and make the sport better in every way they should pass a rule making every player a free agent after two years service on one team. Half the ball players in the country play indifferent ball. They think there is no use in trying to show their best for they can get none of the money they are sold for.

McCredie's Ducks should take to this weather fine and dandy.

Kansas City has filed notice of its unconditional release of John Sullivan, who the catcher is. He is trying to get for his Vernon team. He is a saloon-keeper now, however, and can make more money that way than in playing baseball.

The Pittsburgh City Council promises to deed to Barnes Drydus a late slice of land for his right field if he can prove that baseball is an art and a science. The easiest way for him to do that is to show his bank books after these were checked up at the end of last season. Angeles. It might also  
be had in June. Aided to the  
undertakers' Association  
as an amateur meet without  
No Head Needed.

Jack Johnson, having amazement a  
fortune, is reported as being desirous of  
attending school for at least three  
months. If Johnson has as much  
sense as a turkey, and that's none, he  
will beware of an education. He can  
make a million times as much money  
with his fists as he can with his head  
and that might go for a lot more of us.

Nothing But Coal.

An English soccer football club has  
paid \$9000 for a crack player. Now  
this just shows the difference between  
that bunch and me. For I wouldn't give  
\$9 for all the soccer players in the  
entire world. Furthermore, many others  
think that would be a great price and  
I wouldn't be that it isn't.

Probably Need It.

The students of the Phillips-Andover  
Academy, back East somewhere, have  
subscribed \$25,000 for a swimming pool.  
This is hailed as a great feature in  
eastern sporting life. It certainly is  
for it will give a lot of good people  
a chance to take a bath, whether they  
need it or not.

Can't Locate His.

Bugs Raymond is said to have done  
a big lot of work this month at Marlin,  
Tex., with some new curves. He  
doesn't need any, for no one in the  
country has been able to get onto what  
he has now. If you don't believe it,  
ask McGraw.

Amateurs Want It.

Baseball players at the Minnesota  
College are to be allowed to play pro-  
fessional ball during the summer without  
injuring their amateur standing.  
Other "amateurs" who expect a "cut-  
out" of the gate receipts should remem-  
ber this. Amateurs are not expected  
to get the money unless they ask for it.

A.A.U. Troubles.

**RONA DISPUTES DECISION  
MAKING U. S. C. CHAMPION.**

It was decided that the master should  
be referred to the Track and Field  
Championships Committee, with rec-  
ommendation from the Secretary J. E.  
Sullivan of the A.A.U. should be re-  
ferred to the master.

Very little was at stake in the meet  
except the prizes offered as the inter-  
collegiate championship is decided sep-  
arately from the A.A.U. meet.

Capt. J. B. Foster, president of the  
Southern California association, in dis-  
cussing the matter, said that according  
to his interpretation, Pomona should  
be awarded the championship banner.  
He thinks the perpetual bronze cup,  
which is the Southern California A.A.U.  
championship trophy, should go to U.  
S.C. as the relay race is not included  
in the regular events provided for in  
the A.A.U. rules.

Pomona would make good, no matter  
what happened.

Stanford Rixby likes the Isotta best  
of all. He is satisfied now that he  
can do some stunts with the big car.

Clyde Lepro is not planning any  
more tours. He says the Kassel Kar  
will go anywhere and he is willing  
to take a chance, but he is not getting  
anyone to go with him.

The woman's race is to start at  
2 o'clock this afternoon. Of course,  
if the rain comes down in sheets, the  
girls cannot drive. If not, look out  
for a dash.

H. L. Owsley, manager of the Pa-  
cific Coast branch of the Winton Motor  
Company is here visiting W. D.  
Howard, the local Winton man. He  
says the prospects are great for a big  
business and is pleased with the  
large number of cars Howard has sold  
and is about to sell.

**GOTCH IS SCARED.**

Dr. Holler, who was Gotch's part-  
ner, says Champion would be killed  
by Hack in a Square Deal.

Dr. B. F. Holler, the wrestler, who  
for many months was the partner of  
Frank Gotch, champion wrestler of the  
world, today declared that Gotch is  
afraid to meet Hackenschmidt, the  
Russian Lion, whom he considers an unbiased  
referee give the decision.

"Gotch" said Holler, "is the dirtiest  
wrestler on earth. He is tricky and  
treacherous and resorts to all sorts of

decided after much serious thought  
to try for new records in the 100 and  
440-yard races. That's always the  
way. You just can't keep higher education  
from running to legs, and there are  
few modern college boys that don't  
think Plato and Socrates were bums,  
because they couldn't do the high  
hurdles in 17 flat, or play left half  
on the team. Still, it's a lot easier  
to be yell leader than to bother with  
even the first page in the spelling book.  
**No Head Needed.**

won the decision by dirty work and  
Hackenschmidt had no chance with the  
tactics Gotch was employing.

"That talk about Gotch's wife not  
wanting him to wrestle is all bun-  
combe," said Holler.

"Gotch is afraid of Hackenschmidt."

Lots Doing.

**TRACK ENTRIES  
FOR BIG MEET.****COUNTY HIGH SCHOOLS TO COMPETE SATURDAY.**

Long Beach and Throop Look to  
Have Best Chance of Winning.  
Nearly Two Hundred Men From  
Nine Schools to Mix Up in Events.  
Programme of Entries.

Track athletes from Long Beach High  
School and Throop Polytechnic School  
will scrap it out for first honors at  
county track and field meet,  
scheduled for tomorrow on Baer Field,  
Los Angeles.

Only a hard downpour of rain on  
Saturday will prevent the meet from  
being held, as the City League and  
Southern California tournaments,  
which are to be held for the two weeks  
preceding, make it necessary to have  
the county tryout this weekend.

One hundred and seventy-five entries  
have been received from nine of the  
county schools, including Whittier, Occi-  
dental, prep, Pasadena, South Pas-  
adena, Long Beach, U.S.C. preps,  
Throop, Harvard and Glendale.

The mile run between Dodd of Long  
Beach, who holds the Coast Inter-  
scholastic record, Horton of Whittier,  
Harold of South Pasadena promises  
to be the feature of the meet. Dodd  
is expected to win, but the other boys  
both have good records and are likely  
to push him close.

With teams from Throop, Glendale,  
Long Beach and Harvard, the competition  
in the relay should be one of the  
best relay events in the South  
this year. The evenly-matched entries  
from Throop and Long Beach are  
likely that the relay race will decide  
the winner.

The entries tomorrow are:  
The fifty-yard dash—St. Clair,  
Weatherby, Herd (T.) Beebe (S.P.)  
Moore (G.) Grant, Shiflett, Haynes  
(H.) Davis, Mosco, Mid, Mason (L.)  
Foster (O.) Newby, Allen (P.)  
McDonald (P.) Baillie, P. Jones (O.)  
Mile run—Harrel, Leyden, Reden-  
our (T.) Horton (W.) High, Kiesling  
(S.P.) Biddell (G.) Dodd, Lawrence,  
Cullen (L.B.) Torrance (U.S.C.)

The 100-yard dash—St. Clair,  
Weatherby, Herd (T.) Beebe (S.P.)  
Moore (G.) Grant, Shiflett, Haynes  
(H.) Davis, Mosco, Mason (L.B.)  
Foster (O.) Newby, Allen (P.) Hu-  
ston (U.S.C.)

The 120 hurdles—Herd, Knapp (T.)  
Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 220 hurdles—Herd, Knapp (T.)  
Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 440-yard dash—Herd, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 880-yard relay—Herd, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 100-yard dash—Herd, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 220-yard hurdles—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 440-yard dash—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 880-yard relay—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)

The 100-yard dash—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 220-yard hurdles—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 440-yard dash—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 880-yard relay—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 100-yard dash—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 220-yard hurdles—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

The 440-yard dash—Smith, Knapp  
(T.) Tucker (O.) Grant (H.) Long (L.B.)  
Sims (P.)

**Baseball—If the Rain Continues.**

Cruise of Red Sox.

**WHAT MAY HAPPEN IF THE DINGED RAIN DOESN'T STOP.**

BY BO'SUN PABST.

FROM the log of the good ship  
Red Sox, March 9, latitude 41°44',  
longitude 9° 0'.—After a two-  
weeks' cruise over stormy seas we  
awoke on the morning of the ninth to  
find the still still. At 4:30 Ad-  
miral Carrigan prepared our deck. In  
keeping with the weather his broad  
sabre was clattered on deck. In  
the distance a long line of sharks  
was visible. "Zounds! Zounds!" ex-  
claimed the admiral, as he heaved the  
anchor chain to pieces. "My men  
must have work." With the bell  
sounded for morning practice and  
the crew of Boston huskies rushed  
from their quarters doing the hornpipe  
and were soon playing their best game,  
some choosing stud and others sticking  
to straight jackpots.

After an hour of work Ensign Engle  
refused further practice. "There is no  
variety to this work," he exclaimed.  
"Here we have been doing nothing but  
showing forward. My pulling in must  
show some improvement." So forthwith  
he was transferred to the checker squad.  
The checkers were blue chips and cost  
no more than the white ones.

The day being cold and raw the men  
had difficulty getting warmed up, until  
suddenly Midshipman Perry dis-  
covered a six-acid in a deck. After that  
he never slept so soundly.

For the third time in the battle waged  
between the checkers and the ship's sur-  
geons, Vernon had won.

As the mighty Red Sox twirler came  
to ship after fanning two Vernon  
sailors, Adm. Carrigan said, "What  
you got?" "Three queens," said Busick  
absent-mindedly.

When Vernon took the open water it  
was seen that "Hap" had stolen a march  
on his Boston rivals and was  
winning the race.

For the fourth time in the battle waged  
between the checkers and the ship's sur-  
geons, Vernon had won

Needs But a Spark.

**UTO FANATICS TURN A TRICK.***urbank Stars Mix Up in Motor-Pleasantries.**uggles Loses Skid Chains and Hunts Trouble.**spects Plenty But Proof Is Sadly Lacking.*

Incivil war has busted out in the *rbank Stock Company* besides which a *unpleasantness* in Mexico is as the vapors of a peevish piffer.

*hase Ruggles blames it to David Hartford, and Tom Beale says it's the fault of Josef Montrose.*

Hartford says it is merely the property of inanimate things.

First of all, it will be noted that each of the four persons involved owns, operates, and otherwise is the victim of automobile.

Beale has a Lexington that looks a yard of light brown ribbon.

Hartford has a Regal that looks like a woman out for an airing in a sedan. Ruggles has a *ucht* that he built for five passengers and usually hauls six and an *in-*

*Montrose has a Tourist runabout which speaks for itself.*

Ever since this concatenation of gasoline contraptions transpired the *de-* *as* to the merits of the various *ties* have been heavily scrutinized and awfully tiresome to everyone else.

When the present rain started it sent the talk stage, and somebody was doing something.

Ruggles ploughed out Seventh street

against the tide and a fifteen-knot u-wester; with his tonneau full of

auty and talent, felt something slip,

and his car turned half way around

and threw the emergency. He had

the skidding chains of his left hind

axel, and had to swim around and it.

He declared later that he had

in a certain city, name and com-

plete unrelated, to an undue in-

crease in the aforesaid chain. He

expected the removal of the link-pin

of the substitution of a piece of rope,

which soon wore in twice.

## TURN ABOUT.

Next day it was Hartford who had

worn in the middle of the rainstorm

and stuck a stone out of his car's hood,

words to that effect.

Beale and the others got theirs later

but got so that whenever any one of

the four Burbankers started out they

had their diving suits with them, as

we had no hope of making their next

without something going wrong

nothing serious, of course—just some

thing that looked as if it could

have been done by anyone who knew

the perversities of gas buggies

such as Hartford would be nearing

now. Way to say, there would

be a noise that no automobile ever

ter when it is in good health, and

when Hartford were a swearing man,

would have said something else than

that.

The contest to see which could do the

most thing to the others' cars with-

t wrecking it became so fierce that

only has been leaving his in the

range for two days and Josef never

had his runabout seen the Burbank

Beale says it is because he doesn't

want to get his car muddy and Mont-

Remember Lottie Kendall?

brilliant and graceful comedienne on whose piquant beauty the entire durability of the old "Olympia Opera Company" was based? Miss Kendall lived in Los Angeles for such a long time, and played so many differing roles—varying from comic-opera, prima-donna parts to an Ibsen character—that she may well be considered a thorough-going Angelino. She is returning, featured in "Madame Sherry." The hard-working individual in whose embrace she is so thoroughly wrapped at the present moment is Comedian "Billy" Cameron. They are doing one of the spectacular numbers of the show, the "Danger Dance." However—it's said to be not quite so dangerous as it looks.

## Bowling Congress.

**LOS ANGELES IS TO RECEIVE VOTES OF THE DELEGATES.**

(BY DIRECT WIRE TO THE TIMES.)

**POKANE (Wash.)**—March 9.—[Exclusive Dispatch.]—The Western Bowling Congress inaugurated its sixth anniversary tournament tonight with only two match games of five-men teams.

The opening programme was taken up with formal ceremonies.

Both teams were local. Outside teams will not appear until Saturday night, when Los Angeles fives will shoot at the pins.

Role skating is very popular in St. Petersburg. There is very little boxing, and wrestling is restricted on the desks. There is little fencing. Gymnastics is gone in for strength, with the German and Bohemian Sokol types the most popular.

Los Angeles is here already with seventeen delegates, boasting for the 1912 tourney for their city. From all appearance they will get it as Vancouver, which has bid for the bowling event, is not represented here yet, and

Mean Business.

**SOCER ELEVEN INTERNATIONAL.***Germans and Swiss Form Challenging Team.**European Stars to Tackle British Aggregations.**Men Have Great Records Made in Vaterland.*

International soccer football will be played in Los Angeles within a few days when a team of German and Swiss players, which is being organized, will meet one of the local English or Scotch teams.

P. H. Dedicke, who was official umpire for the South German League for a number of years, is in charge of the new team. It will include a number of old stars from Germany and Switzerland. One member of the eleven is a Frenchman so that Europe will be well represented when this aggregation meets eleven composed of English, Irish and Scotch as most of the present teams are.

For months a number of the athletic Germans who were particular stars in "der vaterland" have watched the Britishers nimbly juggling the ball over the Praeger Park gridiron. The English spectators who thronged the sidelines clapped and applauded but the "dutchmen" only frowned and muttered, "ach, wat nur."

Soccer is quite as popular in Europe proper as it is in the British Isles and the Germans are reputed as being especially skillful at the game. For this reason it seems likely that a real exhibition will be seen when the foreigners clash, with a grudge that has come up through history for a stimulus to action.

For several weeks the German and Swiss have been practicing in vacant lots. The team has scheduled no games as yet, but is to line up for a practice exhibition next Sunday. Dedicke, who is managing the team, has already applied for admission into the local soccer league so that the new team will play against popular clubs among the football matches of the future.

Among the old-country stars who will form a nucleus for the new team, A. E. Rheinhold, a Swiss player, is the star of the aggregation. He played a back position on the F. C. Winterthur team of Switzerland. This was one of the best teams in the country.

Alfred Schmidt, another of the local players, was a member of the F. C. Kickers which won the championship of Germany in 1907. This team toured nearly all over Europe and defeated every team played.

Henry Hirsch and W. Venialini, the latter a Frenchman on St. Patrick's Day, Mike and Johnny McCarthy, may be substituted. It would prove an interesting go and we local fans a good gauge on Mamie's ability.

In the elimination card under preparation it is likely that Frayne and Mamie will be pitted against each other. Frayne has fought some good fights. Among his more recent was a beating at the hands of One Round Hogan. Frayne, however, has a draw with Owen Moran to his credit and his friends allege that when he fought Hogan he was in a poor state of physical health.

Manager McCarey is considering

Johnny McCarthy and Kid Dalton for the second bout, and Sullivan and Couture, feathers, for the third, on the first April date. McCarthy's stock record went sky-high when he knocked out Morris Bloom in comparatively easy fashion. In Dalton, however, he would have a hard nut to crack.

The Kid has been taking the best care of himself during his lengthy layoff and is confident that he could whip the San Francisco boy.

The two first bouts will be for fifteen rounds each, while the one between Sullivan and Couture would be for ten. The three bouts would be heavily appreciated by the fans and give them forty rounds of high-class entertainment.

Jimmy Chico is about town with a chip on his shoulder. He is anxious for Tom McCarey to give him another chance at Young Chico. Jimmy alleges that Chico gets within a few pounds of the 130 mark he will give him the best beating of his life.

McCarey is head of the

contracting firm of C. H. Goodell, Inc., of Kansas City, and owner of the Los Angeles and Portland railroads, which is engaged in construction.

He purchased the Will-

ington in a winter home

and the magnificence of the place itself, which

is a great admiring feature.

MARCH 10, 1911.—[PART II.]

HOLIDAY MORNING

BUYS QUICKLY  
AND MOVES IN.

Speed in Realty Re-  
dence Deal.

Local City Millionaire Pur-  
chases a Home.

Hundred Thousand Cash Is  
Paid for a Mansion.

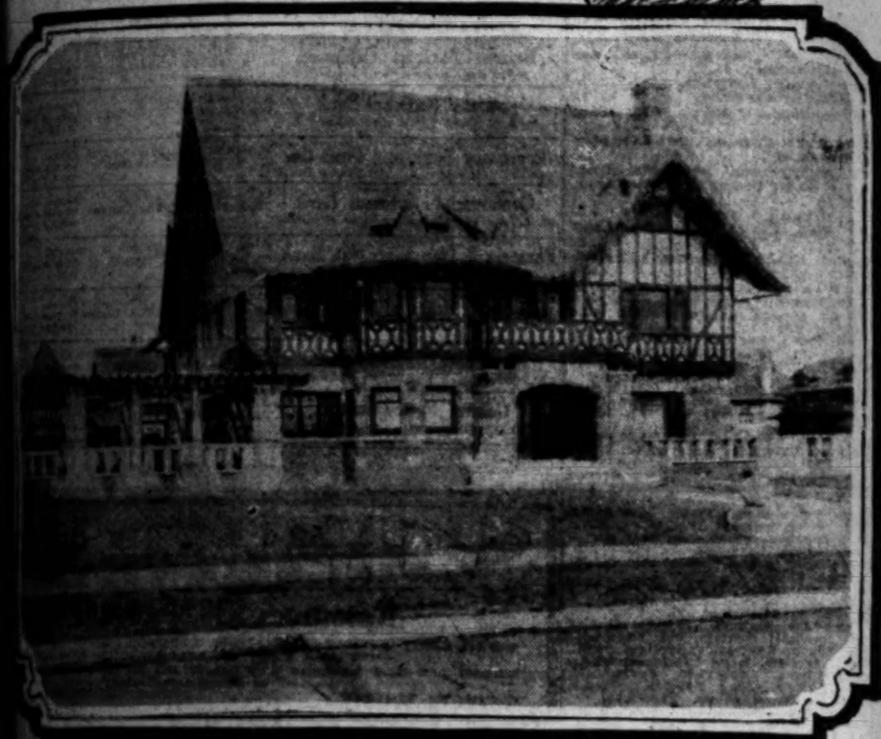

Plans for rapid realty transfers by  
privately broken yesterday by  
H. Sharp, a Kansas City mil-  
lionaire, who bought the mansion  
at 1100 Wilshire boulevard, and  
is now spending active negotiations for

we can't get anyone else. Very  
few firms around here will take them.  
Many of them apply to work at other  
trades or professions. Thus they are  
entitled to their wages, plus a weekly  
sum from the unions, if they are  
strikers in their own trades.

"This system of double payment is  
a graft, and having two sources of  
income makes the men lazy. They are  
apt to leave at any time, too, if their  
strike continues. We want to run our  
trades problems to suit ourselves, and  
a union man is always subject to an-  
noying calls from the outside."

"The city is full of floaters, men  
who have no desire to get ahead. They  
will work a few days and remain idle  
the next. This is made possible by the  
many cheap lodging and eating  
houses in Los Angeles. There is a  
good deal of misdirected charity; it  
isn't a good thing for loafers to be  
able to live too cheaply, because then  
they never will work. Summing the  
thing up, we shall have a hard time  
to get all the men that shall be asked  
for, unless as the rains let up. There's  
plenty of work for the men who want it."

Richard A. Stevens, one of the oldest  
traveling salesmen on the road, is reg-  
istered at the Hollenbeck from London.  
He has been in the country for some time  
in the interest of the Melody-  
Todd & Company, pen makers of Eng-  
land.

Wilshire Boulevard Mansion Sold Yesterday for a Hundred Thousand Dollars.

great importance and the investigation  
has been closed.

D. Lorenzo was moving into the  
house yesterday. He discovered that  
one of the gas pipes was faulty and  
he sent for a plumber. Mrs. M. Normandy,  
living at No. 210 Adair street,  
over the house, said she had been  
empty for about three months and  
she believed the pipes might have  
become leaky, so did not investigate before  
the plumber arrived. A short  
time after going into the cellar to look  
the pipes over, the plumber  
was struck on the head and he had found  
a box of dynamite.

Lorenzo accompanied him into the  
basement and the report of the dis-  
covery was confirmed very easily,  
as the box was partially open and one  
stick had rolled out and been broken.  
From the appearance of the dynamite  
it is believed to have been in the  
cellar a long time.

No car nor furs were found. The  
box was among others which had  
apparently been used by a former tenant  
for kindling. Mrs. Normandy stated  
last night that her former tenant was  
named McWilliams, but she did not  
know his first name or where he had  
gone after leaving the house. He is  
believed to be a traveling salesman.

RUNAWAYS HURT THREE.

**Rigs in Collision and Frightened  
Animals Cause Injuries to Trio of  
Persons Who Are Thrown Out.**

Four runaways, which occurred in  
different parts of the city yesterday  
afternoon, resulted in three persons  
being slightly injured. They were taken  
to the Receiving Hospital, where their  
injuries were dressed, and they were  
then discharged from the hospital.

A horse driven by J. R. Stuttska, No.

449 East Forty-third street, was frightened  
about 3 o'clock when another runaway  
horse drawing a junk wagon crashed against it on North Main street.

Stuttska's horse ran away, throwing  
the driver out of the carriage. The owner of  
the horse was thrown to the ground.

The horse was not learned by the police.

George Pappas, a vegetable peddler,  
was thrown from his wagon and cut on  
the head when his horse became frightened  
at a piece of newspaper at Second

and Lake shore avenue. Pappas lives  
at No. 100 North Main street.

Sam Pappas was thrown from his  
wagon near the Salt Lake depot and he was  
severely bruised on his left side.

As far as was learned yesterday, no  
charges of theft can be made against  
the men by the local police, as there  
is no evidence that they have broken  
into cars in the Los Angeles yards.

How Eagen learned that the men  
wanted were in Los Angeles was  
related to him yesterday afternoon.

In brief, it is that by a process of  
elimination, in which several thousand  
men employed by the B. & O. rail-

road yards were taken into consideration,  
it was discovered that the trio did  
not occur on nights the trio were not  
at work. Upon their leaving the city  
they stopped. He had meantime  
looked up their records and he found  
he said, enough to warrant pursuit  
across the continent.

Having decided upon the identity  
of the trio, his next step was to learn  
where they had gone. Several weeks  
of hard work failed to turn up a single  
clue. Then Eagen delved again  
into the records and he learned that  
Mabel had been in love with a certain  
certain woman. Within a few  
days the young woman noticed that a  
tall, good-looking man was paying a  
great amount of attention to her. She  
learned many points about her eyes  
and hair that she didn't know before  
him to call her after her.

It wasn't long before Mabel's friends  
noticed that she was attending many  
ances and the tall man who took  
her spent lots of money. Mabel  
noticed too. She noticed it to such  
an extent that she told the tall man  
that he was a heap better than Goodell.  
"Where is Goodell now?" Eagen  
asked again.

"I'll never tell."

"Oh, come on, do."

"Don't a 'trade last' for you."

The prospect of hearing a "trade  
last" got the better of the young wom-  
an and she told that Goodell had come  
to Los Angeles.

Cahill and Eagen then hurried to  
the police station.

The men were quickly  
arrested.

The specific charge on which the de-  
fendants were held was that they had  
robbed a gas station for \$2500  
worth of automobile tires. The tires  
were found in a wholesale auto  
house in Chicago and a few days  
later were valued at about \$3000.

Causes Thrill.

**FIND DYNAMITE  
UNDER HOUSE.**

**EXPLOSIVE IS DISCOVERED IN  
THE BASEMENT.**

Police inquire into the case but  
do not gather any facts which  
they consider of great significance.—No fuses nor caps about  
the stuff—place vacant.

"How great a matter a little fire  
kindle" might have been very clearly  
demonstrated yesterday had a box  
which had been thrown among the  
kindling in the basement of the house  
at No. 638 East Twenty-first street  
been used to start a fire.

The box contained fourteen sticks  
of dynamite.

The police do not know where the  
explosive came from, but believe it  
was delivered at the house with a  
large number of other boxes which  
had been sold to be used as kindling  
wood. They consider the find of no  
importance.

The Oil Industry.  
LOST HILLS IS  
GOOD DISTRICT.

View Held by Oil Operators  
of Experience.

Deeper Drilling Necessary to  
Get Results.

General News of Interest  
From Oil Fields.

The Lost Hills district, according to oil men who have spent much time in the field during the past winter, presents a vast improvement over the conditions that existed when the first discovery of oil was made in October of 1910. Because of the finding of oil at a shallow depth in the discovery well of the Lakeshore Oil Company, many persons who went into the district early were not equipped for deep drilling.

Others, including the Associated and the American Oilfields, made their entry into the supposed new oil Eldorado prepared to combat any conditions that might exist. A good many oil operators believed that even out on the flats could be found at least one oil deposit. It is now believed that some of the wells will have to reach a depth of at least 2500 feet before oil is encountered. The logs of wells that have gone beyond a depth of 1000 feet indicate that drilling, at almost all points of the district will be cheaper than putting down holes of the same depth in other California fields.

The well of the Phelps-Cheney Oil Company on the northeast quarter of section 28, 26-21, the deepest well in the township and probably in the entire field, was drilled in record time because the management went into the field prepared to meet all conditions. The company has a fine showing of oil and expects very soon to bring in a second well. It is now necessary to shut off the water and put the well in proper shape to become a producer.

The Ward Oil Company, northeast quarter of section 22, 26-21, is now getting things in readiness for a standard portable rig to be put into operation. The company has been drilling for sometime with a portable rig, but will discard it for one that will do the work.

Martin & Dudley are still working on well No. 1 on the northeast quarter of section 18, 26-21, and claim to have every indication of oil reaching the surface. The well No. 4 is reported to be a satisfactory well. They are now spudding in well No. 3 on this section.

The operations of the American Oilfields Company have been delayed on account of the necessity of discrediting the portable rig and substituting a standard.

Up to this time San Francisco and Coalina oil men have taken the greatest interest in the Lost Hills district, but there are indications that Los Angeles men are getting ready to move in that direction.

**STANDARD IS MOVING.**  
PRODUCING DEPARTMENT.

The producing department of the Standard Oil Company is being moved this week from San Francisco to Bakersfield where offices will be shared jointly with the Bakersfield division of the California Natural Gas Company. F. H. Hillman will be in charge of the Standard's business and the new arrangement will be quite a convenience to the oil men of the northern fields who have business with the big company.

Branch offices of the producing department will be maintained in San Francisco and Los Angeles. Mr. Hillman will have unusual authority in the way of making new contracts and leasing ground.

#### IN NORTHERN FIELDS.

#### GETTING GOOD RESULTS.

There is being obtained a good production from well No. 1 of the Madison Oil Company in the northern portion of the Kern River field, the ship channel division, showing an average of about eighty barrels daily. This is a good record for this district. Since well No. 1 of the Tempier McKittrick Oil Company was placed on the pump a good production has been maintained and the truck is being built from the railroad to the well, and shipments will soon begin.

#### LADY WASHINGTON WELL.

#### IN THE SUNSET FIELD.

It is believed that well No. 2 of the Lady Washington Oil Company, on the property of the Yellowstone Oil Company, section 6, 26-23, Sunset field, will be a big one. The oilers have succeeded in getting past the parted casing, which was the cause of several months' delay, and a considerable amount of oil was encountered. The next few days should determine just how well the well is and whether or not it will be finished now or drilled much deeper.

Well No. 1 is being cemented and the drill will soon be sent down to determine the exact nature of the sand. It is believed by some that the sand will be penetrated. Operators are being conducted by the Canadian Sunset Oil Company under contract with the Lady Washington.

#### FIRST CIRCULATOR.

#### STEAM PUMP IN CANYON.

[Special Correspondence of The Times.] WHITTIER, March 9.—The Anchor Petroleum Company, whose territory is in the canyon, east of the city, is putting in its largest steam pump with which it expects soon to have in operation a circulator.

This will be the first circulator used in the Whittier oil fields, and the company expects it to eliminate most of the trouble experienced for the past month with the sand entering the casing. Circulators are used extensively in the Bakersfield and other oil fields. They prevent water from rising in the casing, forcing it down and thus forming a mud wall between the outside of the casing and the bore. This keeps the rocks in place and prevents them from crushing the casing.

#### BREAK IN PIPE LINE.

The break in the pipe line of the Associated Oil Company, caused by some mysterious forces, is still bothering the officials. The break is at a point where the waters of Warthan Creek completely cover it, and it was necessary to get the ends above the water before any attempt could be made to repair the break.

#### UNITED PRODUCING WELLS.

The United Oil Company is one of the newest operators in the Midway dis-

## Oxfords and Pumps \$2.85 For Women-\$3.50 to \$5 Values
